THE ROYAL MILITARY COLLEGE

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about $800.

The annual competitive examination for admission to the College takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.

Explanation of the Articles in the Calendar.

Standard times* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 16th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The column, Sidereal Time Sun on Meridian, shows for every day the Sidereal Time when the Sun's centre is on the meridian of longitude 4h. 30m. W. (71° 30′). For any other meridian, interpolation of these quantities is necessary. For example, on Aug. 10th, 1918, what would be the Sidereal Time when the Sun's centre is on the 81st meridian west longitude. Here the difference in longitude is 9°.5. The tabulated sidereal time on the 10th is 9h. 18m. 43s., and on the 11th 9h. 22m. 30s., giving an increase of 227 secs. which, multiplied by 9°.5 and divided by 360, gives a correction of 6 secs. to be added to 9h. 18m. 43s.

GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42° N., with the corresponding corrections, which are additive, for latitudes up to 65° N. (See pages 33 and 34.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or substracting the constants given in the annexed table. These constants are calculated for declination 88° 52′ 21″. The maximum error in the use of this table will not exceed 5 secs. in the higher latitudes, and less for the lower latitudes. For the convenience of persons using Sidereal Time the Sidereal hour angle is given.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

---

* In the present Almanac the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result *subtract* the constant quantity 1h. 26m.

To find the time of *rising* of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting*, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Example.—Find the times of culmination, rising and setting of α Tauri (*Aldebaran*), January 2nd, 1918.

All stars rise and set about 3m. 56s. earlier each succeeding day.

ECLIPSES DURING 1918.

(F. L. BLAKE.)

In the year 1918 there will be three eclipses, two of the Sun, and one of the Moon.

I.—*A Total Eclipse of the Sun*, June 8th, visible in Canada as a partial eclipse. The path of totality commences in longitude 130° E. and latitude 25° 41′ N. in the Pacific south of Japan. It then sweeps across the ocean passing south of the Aleutian Islands striking the northwest coast of the United States just south of the Straits of Juan de Fuca close to the Columbia River. Thence sweeping onward with tremendous velocity in a southeasterly direction clear across the United States a distance of about 2,700 miles, until it leaves the land near the middle of the Atlantic Coast of middle Florida, finally ending in the Atlantic Ocean north of the Bahama Islands. In its course the cities of Denver and Jackson with numerous towns and villages will be immersed in the shadow of totality for periods of time of nearly three minutes on the western coast to less than one minute near the Atlantic. The path will be about 60 miles wide. The eclipse begins in Toronto 5h. 2m. p.m. and ends 7h. 22m. p.m. The magnitude of the greatest eclipse being 0.666. At Winnipeg the eclipse begins 4h. 7m. p.m. and ends 6h. 15m. p.m., the magnitude of greatest eclipse being 0.744. The City of Victoria will be near the northern limit of totality but outside of it, the magnitude of the eclipse there will be 0.965. The eclipse begins in Victoria at 1h. 35m. p.m. and ends 4h. 6m. p.m., the greatest obscuration occurring at 2h. 50m. p.m.

II.—*A Partial Eclipse of the Moon*, June 24th, the moon enters the umbra 4h. 46m. a.m. Middle of the eclipse 5h. 28m. a.m., moon leaves the umbra 6h. 10m. a.m., Eastern Standard time. The above times will be one hour later in Atlantic time for the Maritime Provinces. Magnitude of eclipse 0.135. The moon will be low down.

III.—*An Annular Eclipse of the Sun*, December 3rd, invisible in Canada and the United States. Visible in South America.

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0·003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

MERCURY AND VENUS.

Some facts and theories regarding our Two Interior Planets which revolve within the Earth's orbit.

Mercury, with a diameter of three thousand miles, is the smallest of the eight principal planets. It pursues a track, too, more eccentric and more highly inclined to the ecliptic than any other planetary orbit. The plane of its orbit makes an angle of 7° with the ecliptic, and is traversed with a speed varying from 23 to 35 miles a second. The corresponding distances from the Sun are 43 and 28 million miles, with a mean distance measuring 36 millions. Independently then of what we call seasons, Mercury is subject, in the course of its year of 88 days, to considerable vicissitudes of temperature.

At perihelion it receives nine times, at aphelion or farthest distance from the Sun only four times, more heat than is imparted by the sun to an equal area of the earth.

The crucial point as regards the physical condition of a planet is the presence or absence of an atmosphere. And there is decisive evidence that Mercury is in this respect poorly provided, and as it sends back only about as much light as if it were made of grey granite, has the lowest albedo or reflecting power, it may be safely concluded to possess the thinnest aerial covering. Yet it is not altogether a totally airless globe.

Mercury is "new" when nearest the earth, and "full" when most remote from it. At both these periods, its position with regard to the Sun renders it ordinarily invisible; so that it is usually seen as either gibbous or crescent shaped.

From a study of its phases the oonclusion has been arrived at that its surface is broken and uneven.

Little or nothing was known about the rotation of Mercury prior to 1882. Observations made by Schiaparelli showed the planet in colour, light rose with a coppery tinge, diversified by brownish-red markings. Although evidently of a permanent nature, their outlines escaped precise definition but showed no effects of rotation. The conclusion arrived at was that Mercury rotates on a nearly upright axis in the same time that it revolves round the Sun. Its day, no less than its year, is equal to 88 of our days. Consequently it turns at all times, subject to considerable librations, the same face towards the Sun. Except in a few favoured localities, the existence of liquid water must be impossible. Mercurian oceans, could they ever have been formed, should long ago have been boiled off from the hot side, and condensed in thick-ribbed ice on the cold side. Mercury, according to our ideas, is totally unfitted to be the abode of organic life. Nor can it at any time have been more favourably circumstanced than at present. Its rotation was reduced to its actual minimum rate by the power of solar tidal friction. The attainment of rapid gyration was prevented by the resistance of solar tides raised on a plastic mass. Disruption was accordingly rendered impossible. The planet was, by anticipation deprived of satellites, and remained undivided and solitary.

MERCURY AND VENUS—*Continued.*

Venus.

Venus is the earth's nearest planetary neighbour, and might be called its twin. Its diameter is 7,700 miles, and it revolves around the Sun in 225 days at the rate of 22 miles per second in an almost circular path or orbit. Its distance is over 67 millions of miles; hence it receives just twice as much heat and light as the earth. Moreover, it reflects at least 65 per cent. of the light incident upon it. Viewed in the same telescopic field with Mercury during close conjunction, it shines, like burnished silver, while Mercury appears as dull as zinc or lead. Yet Mercury is illuminated, on an average 3½ times more intensely than Venus. The planet is surrounded by a shell of clouds which constitutes its visible surface and it is questionable whether we ever see any landmarks except possibly the peaks of high mountains which may pierce through the dense cloud surroundings. It is generally accepted at present that the time of rotation on its axis is performed in 225 days, being the same as its revolution around the Sun. In that case perpetual day would reign on one hemisphere and perpetual night on the other.

Comparing the two planets nearest the Sun, the first impression is of astonishment at their unlikeness. One travels in an almost circular, the other in a highly eccentric orbit. One possesses a dense and extensive atmosphere; the other is barely gauze-clad, and is hence exposed to almost unmitigated extremes of temperature, while the conformation of its solid surface is left open to telescopic scrutiny, impeded only by the inconvenient glare of the Sun. That surface is of a reddish hue, and absorbs more than four-fifths of the light with which it is flooded; the disc of Venus being, on the contrary, of a dazzling whiteness, and little less reflective than a summer cloud. Yet these two globes, so dissimilar individually, have apparently had the same destiny prepared for them. Deprived of all but a remnant of their rotation by the frictional resistance of Sun-raised tides, they were debarred from the production of satellites, and subjected to what we in our ignorance, might be apt to call fantastic climatal conditions.

With due reserve it may be added that they have thus apparently been rendered unfit to be the abodes of highly developed organisms. Why this has been so ordained we are unable to conjecture; we must wait to know.

LEGAL WEIGHTS AND MEASURES IN CANADA.

In Canada the law provides, with respect to weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains), one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy.

As regards measures—That the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon, containing ten standard pounds weight of distilled water, weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon, commonly known as the "Imperial gallon," contains 277.274 cubic inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

Imperial Measure.

Special note should be made of the fact that certain standards of weights and measures used in some of the states of the United States are not legal (though frequently used), in Canada. These standards are not so large, being about 20 per cent. smaller in capacity than the legal standards in Canada, *i.e.*, the Imperial pint, quart and gallon.

The following tables shew the legal weight in Canada of certain commodities by the Barrel, Bushel, Bag, etc.:—

Commodities by the Barrel.

Every barrel, half barrel, bag, sack or package must have marked thereon the name of the packer and the brand and the weight of the contents, and in the case of feed, the composition thereof.

	Net Weight in Dominion Standard pounds.	
	Barrel.	Half-barl.
Flour	196	98
Meal	196	98
Rolled oats	180	90
Rolled wheat	100	50

Apples.

Barrels used for packing apples must be 26¼ inches between the heads inside measure, 17 inches in diameter at head, and have a middle diameter of 18½ inches, containing as nearly as possible 96 quarts. Boxes used for packing apples must be not less than 10 inches deep, 11 inches in width and 20 inches long, representing as nearly as possible 2,200 cubic inches. Every such package (barrel or box), must be marked with the name of the person or corporation doing the packing, the name of the variety and the grade, viz.:—Fancy, No. 1, No. 2, No. 3.

The weight of a barrel of apples varies considerably according to the variety. The standard weight as accepted by the railway companies is 165 pounds. The average would probably be about 155 pounds. This includes weight of the barrel, which is about 15 pounds.

Vegetables and Other Articles.

Unless a bushel by measure is specially agreed upon, it must weigh the number of pounds set opposite each article.

THE INCOME WAR TAX ACT, 1917.

This Act, passed by the Dominion Parliament in the Session of 1917, establishes a Dominion Income Tax.

The following is a summary of some of the most important provisions of the Act. The summary is not official and, in case of doubt, persons interested are recommended to write to the Commissioner of Taxation, Finance Dept., Ottawa:—

INCOME.

Section 3 defines income as follows:

(1) For the purposes of this Act, "income" means the annual net profit or gain or gratuity, whether ascertained and capable of computation as being wages, salary, or other fixed amount, or unascertained as being fees or emoluments, or as being profits from a trade or commercial or financial or other business or calling, directly or indirectly received by a person from any office or employment, or from any profession or calling, or from any trade, manufacture or business, as the case may be; and shall include the interest, dividends or profits directly or indirectly received from money at interest upon any security or without security, or from stocks, or from any other investment, and, whether such gains or profits are divided or distributed or not, and also the annual profit or gain from any other source; including the income from but not the value of property acquired by gift, bequest, devise or descent; and including the income from but not the proceeds of life insurance policies paid upon the death of the person insured, or payments made or credited to the insured on life insurance endowment or annuity contracts upon the maturity of the term mentioned in the contract or upon the surrender of the contract; with the following exemptions and deductions:

EXCEPTED INCOME.

(*a*) Such reasonable allowance as may be allowed by the Minister for depreciation, or for any expenditure of a capital nature for renewals, or for the development of a business, and the Minister, when determining the income derived from mining and from oil and gas wells, shall make an allowance for the exhaustion of the mines and wells;

(*b*) The amount of income the tax upon which has been paid or withheld for payment at the source of the income under the provisions of this Act;

(*c*) Amounts paid by the taxpayer during the year to the Patriotic and Canadian Red Cross Funds and other patriotic and war funds approved by the Minister;

(*d*) For the purposes of the normal tax, the income embraced in a personal return shall be credited with the amount received as dividends upon the stock or from the net earnings of any company or other person which is taxable upon its income under this Act: Provided, however, that in determining the income the personal and living expenses shall not be taken into consideration.

HOLDING COMPANIES.

(2) Where an incorporated company conducts its business, whether under agreement or otherwise, in such manner as either directly or indirectly to benefit its shareholders or any of them, or any persons directly or indirectly interested in such company, by selling its product or the goods and commodities in which it deals at less than the fair price which might be obtained therefor, the Minister may, for the purposes of this Act, determine the amount which shall be deemed to be the income of such company for the year, and in determining such amount the Minister shall have regard to the fair price which, but for any agreement, arrangement or understanding, might be or could have been obtained for such product, goods and commodities.

NON-RESIDENTS.

(3) In the case of the income of persons residing or having their head office or principal place of business outside of Canada but carrying on business in Canada, either directly or through or in the name of any other person, the income shall be the net profit or gain arising from the business of such person in Canada.

UNDISTRIBUTED GAINS.

(4) For the purpose of the supertax only, the income of a taxpayer shall include the share to which he would be entitled of the undivided or undistributed gains and profits made by any syndicate, trust, association, corporation or other body, or any partnership, if such gains and profits were divided or distributed, unless the Minister is of opinion that the accumulation of such undivided and undistributed gains and profits is not made for the purpose of evading the tax, and is not in excess of what is reasonably required for the purposes of the business.

RATE OF TAXATION.

Section 4 establishes the rate of taxation as follows:

(1) There shall be assessed, levied and paid, upon the income during the preceding year of every person residing or ordinarily resident in Canada or carrying on any business in Canada, the following taxes:

(*a*) Four per centum upon all income exceeding fifteen hundred dollars in the case of unmarried persons and widows or widowers without dependent children, and exceeding three thousand dollars in the case of all other persons; and in addition thereto,

CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA

Note—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We however, disclaim all respousibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorum*, except when otherwise specified.

The Customs War Revenue Act of April 8th, 1915, provides that a War Tax of 5% Preferential or 7½% Intermediate or General be collected on each item in the Tariff except those designated as exempt.

* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, or Belgium.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, Belgium or Italy.

‡ Items marked thus have the British Preferential rate when the importation is from those colonies that come under the West Indian Trade Agreement Act of 1913.

Abbreviations, F.T. = French Treaty, Sp.T. = Special Tariff.

ADDENDA.

A selection of abridged notes to aid Importers and others with limited experience in Customs business.

Animals, pure bred, for improvement of stock, to be duty free, must be imported under following conditions:—

(*a*) Owner must be a British subject, resident in the British Empire.

(*b*) Entry must be accompanied by a certificate stating the animal to be recorded in Canadian National Records or in an accredited Foreign Record. (See dogs, also fowls.)

Automobiles for touring purposes may be brought in by a non-resident of Canada for a period of six months by making a deposit of $25.00 and giving a bond for double the amount of duty. On proof of exportation the deposit will he refunded. For a period of only one month the deposit and bond are not demanded but the automobile must be duly entered at the frontier port of Customs on approved form in duplicate.

Baggage, wearing apparel, and such articles as are in use and actually accompany persons arriving into Canada and are necessary for the purposes of the journey, may be admitted duty free. It does not apply to merchandise for sale or goods belonging to other persons. Up to 40 cigars and 100 cigarettes may be admitted as baggage. Tools of trade in actual use may also be admitted free.

British Preferential. To secure the British Preferential it is necessary to have in addition to the usual requirements:—

(1) A separate invoice must be furnished for preferential goods.

(2) Invoice must have certificate as to origin of goods.

(3) Goods must be packed separately or not mixed up with other goods.

(4) Goods must come direct or have a through bill of lading.

Cash discount not in excess of 2½% may be allowed off for duty purposes if actually deducted on the invoice. Trade discount should be deducted from both columns on the invoice.

Cattle for exhibition purposes over six months old entering Canada from United States must have a veterinary certificate signed by a veterinary inspector of the United States Bureau of animal industry, stating that they have passed the tubercular test within the last six months, also an affidavit from the importer identifying the cattle entered.

Dogs, pure bred. To obtain free entry the importer must produce a certificate of purity of blood signed by the breeder. He must also make an affidavit that the dogs imported are the identical animals described on the certificate.

Deer and Moose. Deer shot for sport by persons not domiciled in Canada may be exported only within 15 days after the "open season." No person in any one year, shall export more than the whole of one moose and three deer, and that in not over two shipments. The exporter must produce the license to a Collector of Customs and sign a declaration as to the quantities and parts exported, the same to he attached to the export entry.

ADDENDA—*Continued.*

Fowls, pure bred, must have certificate of blood describing the breed and signed by the breeder. Also the following sworn to statement made by the importer, "The fowls now imported and entered by the undersigned, are the identical fowl described in the invoice or entry."

Goods damaged in transit. Collectors may permit an importer to abandon to the Crown any whole package of goods damaged in transit, and be relieved of payment of duty thereon, if notice is given within 14 days of landing or entry of such goods.

Goods perishable and breakable. Collectors are permitted to make an allowance for all damage in excess of 15% as certified to by the appraiser on perishable and breakable goods such as fruit, crockery and glass, if the claim is made within three days of the arrival of such goods. If duty has been paid on full value of such goods, a refund may be arranged if the claim is made within 14 days and appraisement is made as soon as they can be examined.

Horses, carriage and harness going into the United States may be re-admitted into Canada duty free if they are returned within one year without change of ownership. They must be reported outward in duplicate with such description as to be identified on return. Duty is to be paid on repairs.

Machinery valued at not less than $10.00 when exported for repairs may be re-admitted by payment of duty on the repairs, only if returned within one year, provided further that application was made for outward entry and examination at Customs at time of export.

Motor cycles as tourist outfit are admitted to entry into Canada for a period of one month under the same conditions as apply to automobiles, when for longer than one month the same conditions apply except a deposit of $10.00 as a deposit instead of $25.00.

Refund on goods returned not according to order, must comply with the following conditions:—

(1) Goods are to be identified by Customs.
(2) Application for refund within one month and export within three months of date of entry.
(3) Proof of export furnished.
(4) Must be accompanied by export entry in triplicate.
(5) Delivered under Customs supervision.
(6) Copy of waybill signed by carrier, also copy of export entry duly certified to by Customs officer at port of exit must be annexed to refund claim.

Refund on goods damaged in transit, duty having been paid on the entire shipment according to the invoice, it will be necessary to bill the railway or inland carriers for the amount of the duty in addition to the value of the goods. It will then be up to the railway to produce a short landing certificate from the ocean carriers if the goods are from overseas, or a proof that the goods were lost or destroyed beyond the confines of Canada. When this proof is produced it must be attached to the refund claim.

Return of goods not according to order. When it is discovered that goods imported are not according to order, the first step is to write the shipper and request a certificate or Foreign Owner's Declaration, correctly executed, that the goods to be re-exported are of foreign origin. When this declaration has been forwarded and received it must be attached to the export entry accompanying the goods. In the meantime notice of such return and a request for refund must be given the Collector at once or within one month of the date of the entry. On the return of the duplicate copy of the export entry the claim for refund may be made. (See Refund.)

Samples (commercial traveller's), are subject to duty each time of importation. The trunks may be admitted free after paying duty at time of first importation.

Samples of dutiable goods imported direct by non-residents of Canada from any British or French Treaty country may be admitted on deposit of a sum equal to the duty. The importer will make a temporary entry on the face of which he will make the declaration that the goods are samples for use only in taking orders and will be exported within 12 months. Samples to be re-exported must be marked for identification.

Sight entries are usually occasioned by defective invoices or no invoices at all. They are to be made out in quadruplicate and the value of the importation must be so increased for duty as to be absolutely certain to protect the revenue. On receipt of corrected invoices a claim for refund may be submitted but not after a period of six months, except by permission of the Department.

Special duty exemptions. Special duty does not apply in the case of goods not made in Canada, or when the difference between the home price at time shipped and the price to the Canadian purchaser does not exceed 5% of the home price. Provided, however, the whole difference is to be taken into account for special duty purposes when exceeding 5%. If the home price at time shipped has been subject to sudden inflation the price at time of purchase may be accepted as the fair market value in the application of the dump.

Special duty does apply and without exemption allowance to articles of a class and kind made in Canada, even when admitted free of ordinary duty.

Value for duty is subject to the following general regulations:—

(1) Home consumption price at time shipped.
(2) Actual trade discount allowed not to reduce below home consumption price.
(3) Usual commission is not dutiable but special commission is dutiable. Over 5% may usually be considered a special commission.
(4) Price of goods as sold in bond not to be accepted for duty.
(5) Foreign revenue duties to be added, but foreign export duties not to be added.
(6) Value must be without condition as to sale.
(7) Value for duty to be at the distributing point.
(8) Must be the value on condition ready for shipment.
(9) Bonus for early delivery must be considered part of value for duty.
(10) Cash discount not over 2½% is allowed off if actually deducted on invoices.
(11) Appraisers valuation is to be accepted.
(12) Articles of different kinds, the highest value is to be taken as the average for duty.
(13) No allowance off for packages, straw, twine, etc.

Valuation for duty on goods not sold for home consumption may, usually, be determined by ascertaining the total cost of producing the goods in condition ready for market and adding thereto the usual profits made on sales of a similar line of goods.

War measures—enemy trade. Goods imported into Canada from Norway, Sweden, Denmark, Holland, and Switzerland, must be accompanied by certificate of origin issued by a British Consul, stating that the goods have not been produced in an enemy country, and that no person treated as an enemy has any interest in the merchandise. Goods from the above countries without certificate are prohibited.

Waybills must show:—

(1) Name and address of consignee.
(2) Marks and number of packages.
(3) Description of packages.
(4) When goods are in bulk, the number of pieces, bundles or bushels.
(5) In case of agricultural instruments, number and description of each class of instruments.

THE KING'S CIVIL LIST.

Immediately after the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 the Civil List Act, an Act by which the charges on the consolidated fund for the maintenance of the King and his family are determined.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the accession of the late King Edward VII., the income from the Crown Lands has very greatly increased, until at the present time it is greater than the amount granted to the King and Royal Family in the Civil List.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse	£110,000
II. Salaries of His Majesty's household and retired allowances	125,800
III. Expenses of His Majesty's household	103,000
IV. Works	20,000
V. Royal bounty, alms and special services	13,200
VI. Unappropriated	8,000
Total	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Dowager Duchess of Fife), Princess Victoria and Princess Maud (Crown Princess of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of £70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List)	£470,000
Queen Alexandra	70,000
Pensions transferred to Consolidated Fund	18,000
Princesses Louise, Victoria and Maud	18,000
Princess Christian of Schleswig-Holstein	6,000
Princess Louise, Duchess of Argyll	6,000
Duke of Connaught	25,000
Princess Beatrice (of Battenburg)	6,000
Duchess of Mecklinburg-Strelitz	3,000
Duchess of Edinburgh	6,000
Duchess of Albany	6,000
Total	£634,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

MILITIA AND DEFENCE OF CANADA.*

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45. being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

*For the Military Service Act, 1917, see page 176.

CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1914.

NOTE.—Owing to European War, no D. R. A. matches took place from 1914 to 1917 inclusively, and therefore no list can be given of the team to shoot at Bisley, in 1918, if latter meet takes place.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won four times by a Canadian: Pte. T. H. Hayhurst, 13th Regt., Hamilton, Ont., in 1895, Pte. J. S. Perry, 6th Regt., D.C.O.R., Vancouver, B.C., in 1904, Pte. W. J. Clifford, 10th Regt. (Royal Grenadiers), Toronto, Ont., in 1911, who also won the Prince of Wales' prize; Pte. W. A. Hawkins, 48th Regt., Toronto, Ont., in 1913. Many other important prizes have also been captured by Canadians. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, '05, '06, and '09. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

THE CANADIAN RIFLE LEAGUE.

(HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lieut. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has been the rule since.

Four matches are held annually over King's ranges (200, 500 and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows:

For an average of 94 points out of a possible 105, a first-class special certificate; for 90 points, a first-class certificate; for 80 points, a second-class certificate.

The competitions are divided into four series as follows:

The first (military) for teams of city corps of the Active Militia; the second (military) for units other than city corps; the third, or civilian series, for teams of Civilian Rifle Associations; the fourth (sections "A" and "B"), Cadet Corps. The entrance fee per team is $10. Fees for additional teams from the same organization, $5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

By Militia Order of June 10, 1903, the C.R. League was placed under the supervision of the Militia Department, Ottawa.

The annual meeting of the League takes place at Ottawa during the D. R. Association competitions.

CANADIAN NAVAL AND MILITARY PENSIONS

(EUROPEAN WAR).

Pension Regulations as amended to October 22nd, 1917, for service in the Naval Forces of Canada and the Canadian Expeditionary Force, during the present War.

NOTE.—Application should be made to the Board of Pension Commissioners, Union Bank Building, Sparks Street, Ottawa, Ont., for further information relating to pensions or other matters connected therewith.

1. The Commission created on June 3rd, 1916, is known as the Board of Pension Commissioners and consists of three commissioners, including a chairman, who are appointed for ten years with eligibility for re-appointment.

2. It has exclusive jurisdiction and authority to consider and make all grants and payments of military and naval pensions, gratuities, allowances and assistance (and to deal with all matters pertaining thereto) to persons wounded, injured or incapacitated in the military or naval service of Canada (called members of the forces), or to their dependent relatives.

3. It has authority to engage such clerical and other assistance as they may consider requisite for the transaction of their duties.

4. In the administration of their powers by the Commission great care is taken to insure all applications being considered and determined with the utmost despatch.

5. There are no appeals from the decisions of the Commission; an applicant for a pension, gratuity, allowance or assistance may present the case either personally or by counsel before the full Commission for the hearing of the complaint.

6. The pension or grant cannot be assigned, charged, attached, anticipated or commuted.

7. Pensions awarded to members of the forces are determined by the disability of the applicant without reference to his occupation prior to enlistment.

8. Each case is subject to review at end of a year from the time the pension is granted, except in cases where the disability is obviously permanent.

9. No deduction is made from the amount awarded a pensioner owing to his having undertaken work or perfected himself in some form of industry.

10. The Commission provides for the vocational training of those who are desirous of taking advantage of it, and for supplying artificial limbs and appliances to those who would thereby be benefited.

11. The Commission has power to entrust to a reputable person for administration the pension or grant, when the Commission is satisfied it is being improvidently expended by the pensioner or beneficiary; or that he is not maintaining his family to whom he owes the duty of maintenance.

12. There are 20 classes of pension on account of disability (Schedules A and B appended), and pension is awarded in direct proportion to partial or total disability. Permanent disability to a less degree than five per cent entitles to a gratuity not exceeding $100.

13. A Sub-Lieut. (Naval) or Lieut. (Militia), or higher rank, totally disabled and also helpless to attend to physical wants, may receive a further allowance not exceeding $300 a year, subject to review from time to time. This allowance may, in the discretion of the Commissioners, be awarded to any totally disabled pensioner although he be not entitled to a Class 1 pension.

14. In addition to the personal pension, annual allowances for children (Schedules A and B) are paid to disabled pensioners. If the children for whom allowances are being paid, do not live with the pensioner the allowances for them may be paid to a guardian. The words "Child" or "Children" include a step-child, also a child in respect of whom the member of the forces was in *loco-parentis*, but, in either case, only if the relationship had existed before the disability of said member.

15. A member killed, or dead as result of injuries received, or disease contracted or aggravated on active service, the widow, provided she was married to him at the time of disability is entitled until re-marriage to the pension set forth in Schedules C and D (appended hereto) and is also entitled to the allowance for children as provided for in said Schedules. If the children do not live with the pensioner, allowances for them may be paid to a guardian. On re-marriage of the widow her pension ceases, but she is entitled then to a gratuity equivalent to one year's pension. The word "re-marriage" includes the co-habiting with a man in the relationship of man and wife, but no gratuity is paid except in the case of legal re-marriage.

16. A member, widower, killed or dead as result of injuries received, or disease contracted or aggravated on active service, and who leaves a child or children, such child or children receive an allowance of $16 per month each. In the case the member was not a widower but leaving a widow whose whereabouts are unknown, the children receive an allowance of $16 per month each until the reappearance of the widow. If she reappears the pension to which she is entitled for the period between the date on which pension is granted to the children and the date on which pension is granted to her, shall be decreased by the amount which the children have received in excess of what they would have received had the widow been pensioned.

17. A woman who has, without being married to a member, lived with him as wife, or the child or children of any such man or woman, may be granted the customary pension and allowance for a wife or for a child or children on the Commissioners being satisfied that the circumstances were such as to warrant the conclusion that the woman had at the time of enlistment and for a reasonable time previously thereto publicly been represented as the wife of said member, or if satisfied that justice would be done by the recognition of such woman, for the purpose of a pension, as the wife of such member. On the re-marriage of the woman her pension ceases, but she is entitled to a gratuity equivalent to one year's pension.

18. No allowance is paid for child (boy) over age of 16, or (girl) 17, except he or she cannot earn a livelihood owing to mental or physical infirmity, in which case it is at the discretion of the Commissioners to continue the allowance until the child is 21. Allowance ceases if child marries.

19. No pension or allowance is paid to a member or any person dependent upon him when disability or death was occasioned by intemperance or improper conduct of such member, unless the Commissioners otherwise consent.

20. Claims for pensions must be made within two years of date of appearance of disability. Time in hospital or on service is not counted in said two years.

21. A parent, or person in place thereof, wholly or mainly dependent upon a member (latter without dependent children and leaving no widow nor woman (see para. 17) killed or dead as result of injuries on

active service, is entitled to the pension set forth in Schedules C. and D., provided however that no such parent or person is entitled to more than one pension, nor is more than one such parent or person entitled to pension on account of one member, or on account of more than one member belonging to the same family. On the re-marriage of a woman receiving such pension, latter then ceases, but she is entitled to a gratuity equivalent to one year's pension.

22. Brothers under age of 16 and sisters under age of 17, wholly or mainly dependent upon a member killed or dead as result of injuries on active service, if such member was without dependent children and leaves neither a widow nor a woman (see para. 17), are entitled to allowances at the rates set forth in Schedules C. and D.

23. If a member to whom a pension has been granted in any of the classes 1 to 5, dies, leaving a widow to whom he was married at the time of his incurring the disability in respect of which his pension was granted, or a woman occupying at said time the position of a wife (*vide* para. 17), or leaving children by such widow or woman, such widow or woman is entitled, until re-marriage, to pension at rates set forth for widows in Schedules C. and D.; is also entitled to allowance for each child at rates set forth in said Schedules. If the children do not live with such widow or woman their allowance may be paid to guardian. On re-marriage of widow or woman her pension ceases, but she is entitled then to a gratuity equivalent to one year's pension. Orphan children of such member are entitled to allowances at rates set forth in para. 16.

24. Pension to a member and allowance to his children on account of disability takes effect from day following that of his discharge. Pension to widow or parent and allowances to children or brothers and sisters on account of death of member takes effect (*a*) from first day of month following that in which the member is officially reported missing or dead in cases in which separation allowance or assigned pay or both were not being paid or were discontinued on last day of month in which he was officially reported missing or dead; (*b*) in all other cases, from a day fixed by the Commissioners. A gratuity equivalent to two months' pension or allowances is paid the first month in addition to pension and allowances to widow and children.

25. Regulations apply to or in respect of members of the Naval Forces of Canada and forces serving in the Canadian Expeditionary Forces during present war, and come into force on 4th August, 1914, and apply to or in respect of all casualties occurring in the said forces since that date.

26. Pension awarded to a member in consequence of his insanity, if the pensioner is in an asylum, or other institution, cost of maintenance therein is paid to the Superintendent or other proper officer thereof; the balance is paid to such dependent relative or relatives of pensioner as the Commissioners may direct; if there is no dependent relative, balance is retained until pensioner's recovery or death. If a pensioner remains in care of his family his whole pension may be paid to such member of his family as the Commissioners may direct, or part only, and the balance retained until the pensioner's recovery or death. However, if a guardian of pensioner has been appointed by a court of competent jurisdiction, the Commissioners may direct the pension be paid to such guardian.

27. The Commission has authority and jurisdiction to appoint one or more persons who shall have power during such appointment to administer an oath and to hear and receive evidence upon affidavit in any part of Canada, with respect of all matters pertaining to military or naval pensions.

28. Increase of pensions, allowances or gratuities authorized by Order-in-Council of October 22nd, 1917, takes effect from 1st April, 1917; the remaining provisions, are on 1st November, 1917, and retroactive only to confirm decisions given and actions taken by the Commission.

THE MILITARY SERVICE ACT, 1917.

This measure, establishing Compulsory Military Service by selective draft in Canada, was passed at the last Session of the Dominion Parliament. The following is a summary of the Law, but parties interested are advised to write to the Military Service Council (Dept. of Justice), Ottawa, for further information on any point about which they may be in doubt.

Section 1 of the Act defines certain terms used in the Act.

Persons Liable for Service.

Section 2 gives a list of those liable for service as follows:

(1) Every male British subject who comes within one of the classes described in Section 3 of this Act, and who:

(*a*) Is ordinarily resident in Canada; or,

(*b*) Has been at any time since the 4th day of August, 1914, resident in Canada,

shall be liable to be called out as hereinafter provided on active service in the Canadian Expeditionary Force for the defence of Canada, either in or beyond Canada, unless he

(*a*) Comes within the exceptions set out in the Schedule (see page 177); or,

(*b*) Reaches the age of forty-five before the class or subclass to which he belongs, as described in Section 3, is called out.

Such service shall be for the duration of the present war and of demobilization after the conclusion of the war.

(2) Nothing in this Act shall prevent any man from voluntarily enlisting in the Canadian Expeditionary Force, so long as voluntary enlistment in such Force is authorized.

Division into Classes.

Section 3 defines the various classes into which the men are divided:

(1) The men who are liable to be called out shall consist of six classes described as follows:

Class 1.—Those who have attained the age of twenty years and were born not earlier than the year 1883 and are unmarried, or are widowers but have no child.

Class 2.—Those who have attained the age of twenty years and were born not earlier than the year 1883 and are married, or are widowers who have a child or children.

Class 3.—Those who were born in the years 1876 to 1882, both inclusive, and are unmarried, or are widowers who have no child.

Class 4.—Those who were born in the years 1876 to 1882, both inclusive, and are married, or are widowers who have a child or children.

Class 5.—Those who were born in the years 1872 to 1875, both inclusive, and are unmarried, or are widowers who have no child.

Class 6.—Those who were born in the years 1872 to 1875, both inclusive, and are married, or are widowers who have a child or children.

MARRIAGES.

(2) For the purposes of this Section, any man married after the 6th day of July, 1917, shall be deemed to be unmarried.

TRANSFERS AMONG CLASSES.

(3) Any class, except Class 1, shall include men who are transferred thereto from another class as hereinafter provided, and men who have come within Class 1 since the previous class was called out.

ORDER OF CALLING OUT CLASSES.

(4) The order in which the classes are described in this Section shall be the order in which they may be called out on active service, provided the Governor in Council may divide any class into subclasses, in which case the subclasses shall be called out in order of age beginning with the youngest.

Calling Out for Active Service.

Section 4 describes how the men are called out for active service as follows:

(1) The Governor in Council may from time to time by proclamation call out on active service as aforesaid for the defence of Canada, either in Canada, or beyond Canada, any class or subclass of men described in Section 3, and all men within the class or subclass so called out shall, from the date of such proclamation, be deemed to be soldiers enlisted in the Military Forces of Canada and subject to military law for the duration of the present war, and of demobilization thereafter, save as hereinafter provided.

(2) Men so called out shall report, and shall be placed on active service in the Canadian Expeditionary Force as may be set out in such proclamation or in regulations, but until so placed on active service, shall be deemed to be on leave of absence without pay.

(3) Any man by or in respect of whom an application for exemption is made as hereinafter provided, shall, so long as such application or any appeal in connection therewith is pending and during the currency of any exemption granted him, be deemed to be on leave of absence without pay.

PENALTY FOR NOT REPORTING.

(4) Any man who is called out and who, without reasonable excuse, fails to report as aforesaid, shall be guilty of an offence, and shall be liable on summary conviction to imprisonment for any term not exceeding five years, with hard labour.

Appeals Against Calling Out.

Section 5 establishes tribunals for the hearing of applications from those who desire exemption.

There are three classes of tribunals established, namely:—Local Tribunals, which consist of two members; Appeal Tribunals, which consist of the Chief Justice of the Court of last resort in each Province; and finally a Central Appeal Judge, who shall be one of the Judges of the Supreme Court of Canada, appointed by the Governor in Council for this purpose.

The Act gives full information with regard to the constitution of the various tribunals, and parties interested are advised to consult the text of the Act.

Section 10 gives the method of procedure to be adopted by those who desire to appeal from the decision of a Local Tribunal.

EXEMPTIONS.

Section 11 gives a list of reasons that may be advanced for exemption as follows:

(1) At any time before a date to be fixed in the proclamation mentioned in Section 4, an application may be made, by or in respect of any man in the class or subclass called out by such proclamation, to a local tribunal established in the province in which such man ordinarily resides, for a certificate of exemption on any of the following grounds:

(*a*) That it is expedient in the national interest that the man should, instead of being employed in military service, be engaged in other work in which he is habitually engaged;

(*b*) That it is expedient in the national interest that the man should, instead of being employed in military service be engaged in other work in which he wishes to be engaged and for which he has special qualifications;

(*c*) That it is expedient in the national interest that, instead of being employed in military service, he should continue to be educated or trained for any work for which he is then being educated or trained;

(*d*) That serious hardship would ensue, if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position;

(*e*) Ill health or infirmity;

(*f*) That he conscientiously objects to the undertaking of combatant service and is prohibited from so doing by the tenets and articles of faith, in effect on the 6th day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he in good faith belongs;

and if any of the grounds of such application be established, a certificate of exemption shall be granted to such man.

CONDITIONAL CERTIFICATES.

(2) (*a*) A certificate may be conditional as to time or otherwise, and, if granted solely on conscientious grounds, shall state that such exemption is from combatant service only.

(*b*) A certificate granted on the ground of the continuance of education or training, or on the ground of exceptional financial or business obligations or domestic position, shall be a conditional certificate only.

(*c*) No certificate shall be conditional upon a person to whom it is granted continuing in or entering into employment under any specified employer or in any specified place or establishment.

(*d*) A certificate may transfer a man to the class next in numerical order.

(*e*) When a conditional certificate is granted the conditions shall be stated on the certificate.

(*f*) It shall be the duty of any man holding a conditional certificate within three days after the conditions stated therein cease to exist or after his exemption terminates, to give notice in writing of such fact to the Registrar of the province in which he ordinarily resides; and if he fails without reasonable excuse to do so, he shall be guilty of an offence and liable on summary conviction to a penalty not exceeding two hundred and fifty dollars.

This Section also provides for the renewal, variation or withdrawal of certificates, and penalties for various offences.

Under the general provisions of the Act it is provided that "unless further authorized by Parliament the reinforcements provided under this Act shall not exceed 100,000 men."

PRODUCTION OF CERTIFICATE.

It is also provided that every man who has a certificate of exemption must produce it when called upon by the proper authority. The following are the clauses bearing on that subject:

(1) Every man within the classes described in Section 3 shall, after his class or subclass is required to report, as provided in Section 4, whenever required by a peace officer or by any person who has authority for the purpose, produce his certificate if he has one, and shall answer truthfully all inquiries bearing on the question of his compliance or non-compliance with any provision of this Act.

(2) Any such man who fails to comply with this Section shall, in respect of each failure, be guilty of an offence, and liable on summary conviction to a penalty not exceeding one hundred dollars or to imprisonment for a term not exceeding one year.

Section 16 provides for the punishment of offences against the Act, and also for the punishment of those who attempt, by written or oral advice, to induce others to contravene the Act.

SCHEDULE OF EXCEPTIONS.

(Referred to on page 176.)

The following is the Schedule of those not liable to service:

1. Men who hold a certificate granted under this Act and in force, other than a certificate of exemption from combatant service only.

2. Members of His Majesty's regular, or reserve, or auxiliary forces, as defined by the *Army Act*.

3. Members of the military forces raised by the Governments of any of His Majesty's other dominions or by the Government of India.

6. Clergy, including members of any recognized order of an exclusively religious character, and ministers of all religious denominations existing in Canada at the date of the passing of this Act.

7. Those persons exempted from Military Service by Order in Council of August 13th, 1873, and by Order in Council of December 6th, 1898.

POSTAL INFORMATION

For List of Officials of Post Office Department, see Dominion Government.

War Tax on Letters and Post Cards.

A war tax of one cent each, in addition to postage, is imposed on all letters mailed in Canada, except those which are subject to the postage rate of 5 cents for the first ounce and 3 cents for each additional ounce or fraction of an ounce, and on all post cards bearing written communications mailed in Canada addressed to places in Canada, the United States or Mexico. Letters and post cards subject to war tax on which the tax is not prepaid will not be forwarded.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

Private Post Cards.—Besides the Post Cards issued by the Post Office Department, pictorial and other cards of private manufacture duly prepaid by means of postage stamps may be mailed in Canada for delivery within Canada or for transmission to other countries. Private Post Cards for delivery in Canada, U. S. and Mexico, must not exceed a size of 6 inches in length by 3⅝ inches in width, nor be less than 3½ inches in length by 2¼ inches in width. Cards for other countries must not exceed 5½ inches in length by 3½ inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

The right-hand half of the face of the ordinary official post cards and of private post cards is to be strictly reserved for the address, postal directions and postage stamps. The left-hand half of the face and the entire back of the card are available for the purposes of the sender, subject to restrictions as to attaching articles to post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

United Kingdom and British Possessions and Protectorates.—Postage on Letters, 2 cts. per oz.

Foreign Countries, except United States and Mexico.—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

United States and Mexico—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States and Mexico. Only the deficient postage is collected on over-weight letters for the U. S. and Mexico which are prepaid one rate.

Express or Special Delivery Letters.—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Belleville, Brantford, Brockville, Chatham, Fort William, Galt, Guelph, Hamilton, Kingston, Kitchener, London, Niagara Falls, Ottawa, Owen Sound, Peterboro', Port Arthur, Sarnia, Stratford, Sault Ste. Marie, St. Catharines, St. Thomas, Toronto, and Windsor; in Quebec—Hull, Montreal, Quebec, St. Hyacinthe, Sherbrooke, Shawenegan Falls and Trois Rivières; in New Brunswick—Fredericton, Moncton and St. John; in Nova Scotia—Amherst, Halifax and Sydney; in Manitoba—Brandon and Winnipeg; in Saskatchewan—Moose Jaw, Prince Albert, Regina and Saskatoon; in Alberta—Calgary, Edmonton, Lethbridge, Medicine Hat and Strathcona; in British Columbia—New Westminster, Vancouver and Victoria; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of

10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

International Reply Coupons.—Persons desiring to prepay replies to letters addressed to correspondents in almost all Postal Union Countries, can purchase at any Post Office in this Country coupons exchangeable for postage stamps of the value of 25 centimes (5 cents), at the price of 6 cents.

Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

The sender of a registered article for delivery in Canada or in any other Postal Union Country, can obtain an acknowledgment of its receipt by the addressee at a cost of 5 cents in addition to the ordinary postage and registration fees.

Indemnity for Registered Articles.

Domestic—(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

British and Foreign.—Except in cases beyond control (*e.g.*, tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs ($10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

1. Newspapers and Periodicals.

Newspapers and periodicals printed and published in Canada and posted from the office of publication.

The general postage rate on newspapers and periodicals *printed and published in Canada* not less frequently than once a month, mailed by the publishers at the post office in the place where they are published, and addressed to regular subscribers or to newsdealers (not resident in the place of publication) in Canada, Mexico, the United Kingdom, and (provided they can be forwarded by direct mail steamers or *via* England) in the following British Possessions:—Barbados, Bermuda, British Guiana, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, Newfoundland, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, State of North Borneo, Trinidad and Tobago, Turk's Islands, Union of South Africa (comprising the Provinces of British Bechuanaland, Cape of Good Hope, Natal, Orange Free State and Transvaal), and Zanzibar, is a bulk rate of ¼ cent per pound. The following exception, however, is to be noted:—Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals may also be delivered free to subscribers at the office at which they have been posted, except in cities where the letter carrier system is established. In the latter case ordinary transient newspaper rates are charged.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof. Other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *boná fidé* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

2. British and Foreign Newspapers posted by Newsdealers in Canada.

British and foreign publications as well as Canadian publications, if authorized by the Department may be posted by newsdealers in Canada to subscribers in Canada or Mexico at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service. Newsdealers may also post recognized Canadian newspapers and periodicals to regular subscribers in the United Kingdom and British Possessions as mentioned above, at the bulk rate of 1 cent per pound.

3. Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British, Canadian and foreign newspapers posted by newsdealers.* When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the

United Kingdom, or British Possessions as mentioned above, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

To countries other than those mentioned above the rate is one cent for two oz. or fraction thereof.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

Books, etc.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for British and foreign post, 4 lbs. 6 ozs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth, but a length of 3 feet 6 inches will be allowed, provided the combined length and girth do not exceed 6 feet; British and foreign: 18 inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries at the rate applicable to books, etc.:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications), engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards and single post cards without written communications, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers and educational exercises passing between colleges and extra-mural students (written corrections and comments on examination papers and educational exercises may be enclosed with them, but no correspondence is allowed), printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

Circulars are communications in print, or produced by a multiplying process easy to recognise, but not direct from a typewriting machine, which are issued in identical terms to several individuals. A circular may, without becoming liable to a higher rate of postage, have a written date and signature, and may have the name of the addressee repeated in writing inside. Reproductions of imitations of hand or typewritten matter, in order to be accepted as circulars, must be handed in at the post office wicket, in a number not less than twenty identical copies, separately addressed. Failure to comply with either of these conditions will subject the article to letter rate of postage.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

The limit of weight for a packet of miscellaneous matter is 5 lbs., and the general limit of size is 30 inches in length by 12 inches in width or depth, but a length of 3 ft. 6 in. is allowed, provided that the combined length and girth of any packet do not exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on books, miscellaneous matter, samples and parcels of merchandise, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

British and Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 12 ozs. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

There must be no writing upon or in any packet of samples, except the address of the person for whom it is intended, the address of the sender, a trade mark or number and the price of the articles, or such words as may be necessary to indicate precisely the origin and nature of the merchandise.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids (except intoxicating liquors), oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States, Mexico, and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—For the United States and Mexico 1 cent for each 2 oz. or fraction of 2 oz.; for the United Kingdom and other countries:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids (except intoxicating liquors), oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

Parcel Post in Canada.

Articles of Mail Matter acceptable at Parcel Post rates include farm and factory products, merchandise of all descriptions such as dry goods, groceries, hardware, confectionery, stationery (including blank books, etc.), seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, and all other matter not included in the first class, and not excluded from the mails by the general prohibitory regulations with respect to objectionable matter.

Parcels containing intoxicating liquors or explosives are expressly prohibited.

The rates of postage on articles accepted for transmission by Parcel Post are as follows:

(*a*) Five cents for the first pound and 1 cent for each additional pound or fraction thereof, up to four pounds, and 2 cents for each subsequent pound up to eleven pounds within a radius of twenty miles from the place of mailing, irrespective of Provincial boundaries.

(*b*) Ten cents for the first pound and 4 cents for each subsequent pound or fraction thereof, for all points in the Province in which a package is posted, outside of the twenty mile radius.

(*c*) Ten cents for the first pound and 6 cents for each additional pound or fraction thereof, for all points outside the Province in which a parcel is posted, and beyond the twenty mile radius, with an additional charge of 2 cents a pound for each Province that has to be crossed to the destination of the parcel, not including the Province in which it is to be delivered up to a maximum of 12 cents a pound.

The three Provinces, Nova Scotia, New Brunswick and Prince Edward Island, are to be considered as one zone.

An additional charge to meet the extra cost of transportation will be made on parcels addressed to or posted at offices in certain outlying districts when such parcels have to be conveyed more than 100 miles by a continuous stage service, such districts to be designated by the Postmaster General.

The charge on any parcel shall not be greater than 1 cent an ounce.

The postage on Parcel Post packets must be prepaid by means of postage stamps securely affixed to the parcels.

An insufficiently prepaid Parcel Post packet is forwarded to destination subject on delivery to payment of double the deficiency, provided at least 1 cent is prepaid. After the additional postage required on any short paid parcel has been collected from the addressee, "postage due" stamps are to be affixed to the parcel and cancelled by the Postmaster.

Parcel Post packets totally unpaid will be sent to the Branch Dead Letter Office.

Parcels must be prepared for mailing in such manner that the contents can be easily examined.

It is desirable that the sender's address should appear either inside the parcel or on the cover. This must be kept distinct from the address proper.

Parcels are, when re-directed, chargeable with additional postage at the rate which would have been chargeable had they been originally mailed from the office of re-direction to the new address, except in cases where the original and the re-directed addresses are both within the delivery of the same Post Office.

The limit of weight for a Parcel Post packet is eleven pounds, and the general limit of size is thirty inches in length by one foot in width or depth, but parcels will be accepted up to 3 ft. 6 in. in length, provided that the combined length and girth do not exceed six feet.

Further information respecting the domestic Parcel Post regulations is obtainable at any Post Office.

Merchandise for United States.

There is strictly speaking no Parcel Post service from Canada to the United States, but packets of merchandise open to inspection, and not exceeding 4 lbs. 6 oz. in weight, may be posted in Canada for any place in the United States, at the rate of 1 c. for each ounce or fraction of an ounce, to be prepaid by postage stamps. Articles thus sent are subject to customs examination on arrival in the United States, and to the collection of any duty to which they may be found liable.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations :—

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to countries other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth. There are some exceptions to this rule, as may be ascertained at any Post Office.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

Prohibited Articles.

All explosive, dangerous or destructive substances, intoxicating liquors, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp.* When stamps are moistened the gum is apt to be removed.

Post Office Money Orders.

Owing to the continuation of the European War, money order business remains suspended with Austria, Belgium, Germany, Hungary, Bulgaria, and any of the countries and places served through those countries, also with Constantinople and Luxemburg.

In view of this fact and also of the fact that the regulations may be still further changed, the usual Table of Foreign Money Orders is omitted from this year's Almanac.

ORDERS OF KNIGHTHOOD, &c.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterford, K.G., K.P., G.C.B., G.C.S I., G.C.I.E., V.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.

CLIMATE OF SASKATCHEWAN.

The southern half of this province is almost wholly prairie land, and it is only to the northward of the Saskatchewan River that any extensive forest areas are found. The climate is similar to that of Manitoba, except that in the southwestern portion spring sets in somewhat earlier than north and east, and in midwinter the chinook effects of the mountains extends at times even as far east as Regina. Up to the end of April the temperature of southern Saskatchewan is somewhat higher than in Manitoba, but from May onward through the summer it is a little lower, and remains so until December. Reference to the Regina summary will show that the tendency to temperature extremes is even greater in Saskatchewan than in Manitoba, an absolute maximum of 107° and a minimum of -56° having been registered. The mean daily range of temperature during the summer months is here, as in the other prairie provinces, very large, amounting to between 25 and 28 degrees ; occasionally during both early June and the latter half of August the temperature goes dangerously near the freezing point, and there are several instances on record of considerable damage by frost to unripened crops. The mean total annual precipitation is from 14 to 18 inches, of which amount nearly 60 p.c. falls in the growing season, May to August. The snowfall is from 30 to 36 inches in western and southern districts and from 10 to 15 inches greater in the east and north.—*R. F. Stupart, F.R.S.C., in Canada Year Book.*

CHRONOLOGY OF THE WAR.

The revolution in Russia and the subsequent dropping of Russia of active participation in the war, the entry of the United States into the war in April, and the great disasters to the Italian armies at the end of October were the most prominent features of the war in 1917. No German gains were made during the year on the western front, and in Mesopotamia and Palestine and Syria the British made steady progress. The small remnant of German troops in East Africa at the end of November, 1917, was making a last stand. While the Italians had suffered an immense loss of territory, of men and of ammunition in the Teuton drives of October and November, at the end of November the drives were apparently ended, and with the help of Franco-British reinforcements the Italian army was making a new stand. The retrieval of its position after what might have been complete demoralization was one of the most cheering indications of the early winter. In Russia, at the end of November, steps were being taken towards a separate peace with Germany. The Scandinavian countries were in a state of perturbation on account of the threat of Germany that it would seize Denmark if any hostile steps were taken by Norway. The U-boat warfare, while still greatly hampering the Allies, was by no means the success that Germany had predicted when she launched into unrestricted sinking of vessels at the beginning of the year—thus causing the declaration of war from the United States.

COPYRIGHT IN CANADA.

The law of copyright in Canada is to be found in the Revised Statutes of Canada, 1906, Chapter 70, which embodies the provisions of the original Act. Its leading features may be briefly summarized as follows:—

Any person domiciled in Canada, or in any part of the British Possessions, or any citizen of any country which has an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart or musical composition, or of any original painting, drawing, statue, sculpture or photograph, or who invents, designs, etches, engraves or causes to be engraved, etched, or made from his own design, any print or engraving, and the legal representatives of such person or citizen, shall have the exclusive right to print, reprint, publish, reproduce and sell such works or compositions in whole or in part, and of allowing translations to be printed, reprinted or sold. Sec. 4.

Exception is made as to immoral, licentious, irreligious, treasonable and seditious literary, scientific or artistic work which is not the legitimate subject of such registration or copyright. Sec. 7.

The rigbt of copyright endures for twenty-eight years from the time of recording the copyright. After the expiration of twenty-eight years the copyright may be extended for a further term of fourteen years to the author if he is alive, or if he is dead, to his widow or child or children, but in such case the title of the work secured must be a second time registered and all other conditions fulfilled which are required in regard to original copyrights, and the author or proprietor must publish a notice of such registration once in the *Canada Gazette*. Secs. 19, 20 and 48.

In no case shall the said sole and exclusive right and liberty in Canada continue to exist after it has expired elsewhere. Sec. 5.

A subsequent edition need not be registered unless it contains very important alterations or additions. Sec. 13.

The conditions for obtaining such copyright are:—

(1) That such literary, scientific or artistic work shall be printed and published, or reprinted and republished in Canada, or in the case of works of art, that they shall be produced or reproduced in Canada. Sec. 49.

(2) In the case of paintings, drawings, statuary and sculpture, a written description must be furnished to the Minister of Agriculture. In the case of books, maps, charts, musical compositions, photographs, prints, cuts and engravings, three copies must be furnished to the Minister, one of which is deposited in the library of the Parliament of Canada, and one in the British Museum. Secs. 11 and 12.

(3) The statutory fee must be paid to the Minister of Agriculture. Sec. 24.

(4) There must be inserted in the several copies of every edition on the title page, or on the page immediately following, if it is a book, or if it is a map, chart, musical composition, print, cut or engraving, or photograph, there must be impressed on the face thereof, or if it is a volume of maps, charts, music, engravings or photographs, upon the title page or frontispiece thereof the word, "Copyright, Canada, 19.. (year of registration), by (name of copyright proprietor)," but as regards paintings, drawings, statuary, and sculpture, the signature of the artist is deemed a sufficient notice of such proprietorship. Sec. 14.

A temporary copyright may be obtained when a literary work intended to be published in pamphlet or book form is being first published in separate articles in a newspaper or periodical. The title of the manuscript and a short analysis of the work must be deposited at the Department, and every separate article so published must be preceded by the words, "Registered in accordance with the Copyright Act." Sec. 9.

Temporary copyright secures to the proprietor all the privileges granted by the Copyright Act during the time of preliminary publication. Before being published, however, in book form, the work must be registered. Three copies of the work must be deposited with the application form and the fee.

An interim copyright may be obtained by the author of any literary, scientific or artistic work, or by his legal representatives pending the publication or republication thereof in Canada, by depositing at the Department a copy of the title or designation of such work intended for publication or republication in Canada, but such interim registration does not endure for more than one month from the date of the original publication elsewhere within which period the work must be printed or reprinted and published in Canada. Sec. 15.

The following fees are payable to the Minister of Agriculture:—On registering a copyright $1.00. On registering an interim copyright 50 cents. On registering a temporary copyright 50 cents. On registering an assignment $1.00. Certified copy of registration 50 cents. Registering any decision of a court of justice, for every folio 50 cents, etc. Sec. 24.

An action for the recovery of any penalty provided by the Copyright Act must be commenced within two years after the cause of action arises. Sec. 44.

If a book, as to which there is subsisting copyright, under the Copyright Act, has been lawfully published in any part of the British Dominions other than Canada, and if the author has lawfully granted a license to reproduce in Canada an edition or editions of such book designed for sale only in Canada, the Minister may prohibit the importation into Canada of any copies of such book, except with the written consent of the licensee, provided that two copies may be specially imported for the *bona fide* use of any public free library or any university or college library, or for any library of any duly incorporated institution or society for tbe use of its members. Sec. 28.

An assignment of a copyright, whether as to the whole interest or a part thereof, must be made by an instrument in writing made in duplicate and registered at the department. Both duplicates must be sent to the Department of Agriculture with the statutory fee. One is retained at the department and the other is returned with a certificate of registration to the person depositing it. Sec. 17.

International copyright, regulated by the Berne Convention, 1886, modified by the Act of Paris, 1896, is binding in the following countries:—Great Britain, the British Dominions, Germany, Russia, Belgium, Spain, France, Haiti, Italy, Switzerland, Tunis, Luxembourg, Monaco, Denmark, Japan and Sweden. An author belonging to any one of the countries named has the same rights in the other countries as the laws of his own country allow him. An author not belonging to one of the countries, who publishes for the first time in one of these countries, also has these rights. An author has the exclusive right of authorizing translations of his work during the entire period of his copyright in the country of origin of the work, but unless he has published such a translation within ten years the exclusive right ceases to exist. Serial stories and short stories are protected. Other articles are protected if the periodical bears upon it a general prohibition against translation; but political articles, news of the day and miscellaneous articles are not protected.

Under the Berne Convention the subject or citizen of a Union Country enjoys in Canada the same copyright protection as in his own country.

As to the existing arrangements between Great Britain and the United States with regard to the rights of citizens of each country to obtain copyrights in the other country, it is understood that a United States citizen can obtain copyright in Great Britain by simply exposing for sale a certain number of copies of his work on the day of publication within the British Empire, whereas the British citizen who desires to obtain a copyright in the United States has to have the type of his book set up in the United States and the book manufactured there.

Both the British Empire and the United States require first publication. Simultaneous publication in another country does not invalidate the copyright. Publications on the same day are treated as simultaneous.

The Rules and Forms respecting applications for copyright may be obtained at the Department of Agriculture, Copyright and Trade Marks Branch.

PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. Whenever a Patentee is unable to commence or carry on the construction or manufacture of his invention within the two years provided, the Commissioner may at any time not more than three months before the expiration of that term, grant to the Patentee or his legal representatives an extension of the term of two years, on his proving to the satisfaction of the Commissioner that his failure to commence or carry on such construction or manufacture is due to reasons beyond his control. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but same unless duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding $100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding $200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far as it has proceeded, with or without plans, at his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, $60.00; partial fee for 12 years, $40.00; partial fee for 6 years, $20.00; for further term of 12 years, $40.00; for further term of 6 years, $20.00; on filing caveat, $5.00; on registering assignment patent, $2.00; for copy of patent, with specification, $4.00. When the invention is not susceptible of being patented or where petition therefor is withdrawn, the Commissioner may return the fee paid, less ten dollars.

The disbursements for filing an application in Great Britain are $25.00; France, $20.00; Germany, $5.00, and $7.50 before issuing patent; Austria, $20; Russia, $75.00; British India, $20.00. Under order dated 2nd October, 1914, it is provided that the Commissioner may order the avoidance or suspension in whole or in part of any patent or license, the person entitled to the benefit of which is a subject of any State at war with His Majesty, and the Commissioner may also in his discretion grant in favor of persons other than a subject of any State at war with His Majesty, license to make, use or vend the patented invention so avoided or suspended. The Commissioner may also extend the time prescribed by the Patent Act or any rules made thereunder, for doing any act or filing any document:

(*a*) Where it is shown to the satisfaction of the Commissioner that the Applicant, Patentee or Proprietor was prevented from doing such act or filing the said document by reason of active service or enforced absence from the country, or any other circumstances arising from the present state of war, which in the opinion of the Commissioner would justify such extension.

(*b*) Where the doing of any act would by reason of the circumstances arising from the present state of war, be prejudicial or injudicious to the rights or interests of any Applicant, Patentee or Proprietor as aforesaid.

Every person applying for Letters Probâte or Letters of Administration to the estate of the deceased person must file with the Surrogate Registrar within six months after the death of the deceased or such later time as may be allowed by the Provincial Treasurer, a statement duly verified containing a full inventory in detail of all the property of the deceased and the fair market value thereof at the date of his death as well as showing every person to whom the same passed with their places of residence and degree of relationship in which they stand to the deceased. Provision is also made for subsequent collection of duty on any property not disclosed therein. The provisions of the Act apply to transfers of property other than for valuable consideration made since 1st July, 1892.

Property outside as well as that within Ontario must be set out and if Succession Duties are payable to any other Province or Country with which Ontario has a reciprocal arrangement for so doing, a rebate of the duty on such outside property will be allowed.

No foreign executor can assign or transfer any bond, debenture, stock or share in any bank or other corporation having its head office in Ontario, standing in the name of the deceased person until the duty has been paid and if such bank or corporation permits same it shall be liable for said duty.

The duty may be paid within eighteen months after the death of the deceased without interest, but if not then paid, interest at five per cent per annum will be charged from date of death until the duty is paid. Instead of paying duty security may be given therefor to the satisfaction of the Provincial Treasurer. The executor is prohibited from paying or handing over any property to any of the beneficiaries until payment of duties, but should he do so the duty thereon with an additional rate of fifty per cent. is recoverable against him. Each beneficiary is liable for the duty upon the property passing to him. Power is given to any person liable to pay duty to raise same by sale, mortgage, or lease of the property vested in him or under his control.

The Provincial Treasurer has power to remit duty in cases of persons killed while on active military or naval service.

There are a number of provisions in the Statute as to the mode of ascertaining the value of property, the amount of duty thereon and the payments thereof and it would be generally advisable to consult a Solicitor to prevent complication and delay.

THE LAW OF INTESTATES ESTATES,

PROVINCE OF ONTARIO.

DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed $1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of three years (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

THE BRITISH GOVERNMENT.

The Second Coalition Administration.

The House of Commons of the present Parliament of the United Kingdom was elected in December, 1910. Had there been no war the Parliament which convened in January 31st, 1911, could not have continued longer than the end of 1915. There had been up to the end of November, 1917, three prolongations of its life; and two reorganizations of the government. In August, 1914, Mr. Asquith was premier of a Liberal Government. He was then supported in the House of Commons by 372 members—Liberals 261, Labor and Socialist members, 37, Irish Nationalists, 74. The Conservatives or Unionists numbered 288, and the Independent Nationalists 9.

Just as soon as war began ordinary party politics in the constituencies, as well as in Parliament, came to an end. There was an understanding that when by-elections occurred they would not be contested on party lines. When the member who died or retired was a Conservative, a Conservative would be returned in his place; and the same rule was to apply in case of a vacancy due to the retirement or death of a Liberal or a member of the Labor party.

Growing out of these conditions and out of the general feeling that all parties in Parliament should share the burdens and responsibilities of the war, a coalition government was formed in May, 1915; and since then the United Kingdom has been under coalition rule, as was the case during the Crimean War. At the time of the 1915 reorganization of the Ministry a seat in the Cabinet was offered by the Premier—Mr. Asquith—to Mr. John Redmond, the leader of the Irish Nationalists. But since the Irish Nationalist party was first organized, in the early seventies of last century—since the days of Butt and Parnell—it has always been the policy of the Nationalists to decline all overtures of office; and in keeping with this policy Mr. Redmond declined Mr. Asquith's offer.

The first coalition government, with Mr. Asquith as Premier, continued in power until December, 1916. In that month there was a complete reorganization of the government in consequence of popular discontent over the disasters in Roumania, and the hesitancy of the Asquith Administration in dealing with shipping and food questions. Mr. Asquith resigned. Mr. Lloyd George succeeded him as Premier, and a council of six for the direction of the war practically took the place of the cabinet. These are, in addition to the Premier, Earl Curzon, Lord President of the Council; A. Bonar Law, Chancellor of the Exchequer; Viscount Milner, Mr. George Barnes, and Sir Edward Carson—all without portfolio.

The Ministry comprises the leaders of three political parties—Liberal, Labor and Conservative. From August 4th, 1914, the day war began, until November 1917, resignations or deaths had caused 84 or 85 vacancies in the House of Commons. Only in 20 constituencies in Great Britain were there contests; and these, with one exception, were all due to attempts of independents, acting outside the usual party organizations, to capture seats. The only contest on anything approximating the old party lines was at Merthyr Tydvil in 1915, when an independent miner's candidate carried the seat that had long been held by the late Mr. Keir Hardie, who was a member of the Socialistic group in the House of Commons.

What was described as a coalition seat—a seat for the Hitchin division of Hertfordshire, held by a Conservative and covered by the wartime agreement of the political parties—was lost to an Independent, who was a specialist in air-craft, and a particularly loud and outspoken critic of the coalition government as regards its policy of defence against Zepperlin raids. At the end of October, 1917, also Mr. Ben Tillett, an Independent, carried a seat for Salford, that had previously been held by a Radical. With these three exceptions, a labor man for a Socialist, an air-craft Independent in place of a Conservative, and an Independent for a Radical—from August, 1914, to the time the 1918 issue of the *The Canadian Almanac* went to press,—there had been no changes in the numerical position of English and Scottish political parties in the House of Commons. There had been some changes in the position of the Nationalist party. Three of their seats had been captured by candidates who were nominated by the Sinn Fein organization.

At the time these pages were revised for the press the Administration stood as follows:—

THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prorogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS.

THE TREASURY.

Chancellor of the Exchequer—Rt. Hon. Andrew Bonar Law.

First Lord of the Treasury—Rt. Hon. David Lloyd George.

Financial Secretaries to the Treasury—Sir Hardman Lewis, Stanley Baldwin.

Joint Parliamentary Secretaries to the Treasury—Sir Edmund Talbot, Capt. Fred. Guest.

Lords Commissioners of the Treasury—J. F. Hope, J. W. Pratt, T. Parker, Rev. Towyn Jones.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Parliamentary Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE FOREIGN OFFICE.

Secretary of State for Foreign Affairs—Rt. Hon. A. J. Balfour.

Under Secretaries—Lord Hardinge Penshurst, Lord Robert Cecil.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

THE COLONIAL OFFICE.

Secretary of State for the Colonies—Rt. Hon. Walter Hume Long.

Under Secretary—Mr. W. A. S. Hewins.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1907, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

THE INDIA OFFICE.

Secretary of State for India—Rt. Hon. E. S. Montagu.

Under Secretaries—Sir Thomas W. Holderness, Rt. Hon. Lord Islington.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

Secretary of State for Home Affairs—Sir George Cave.
Under Secretaries—Sir Edward Troup, Rt. Hon. W. Brace.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

THE WAR OFFICE.

Secretary of State for War—Earl of Derby.
Under Secretary—Mr. F. R. Macpherson.
Financial Secretary to the War Office—Rt. Hon. H. W. Forster.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE ADMIRALTY.

First Lord of the Admiralty—Rt. Hon. Sir Eric Geddes.
Civil Lord of the Admiralty—Rt. Hon. E. G. Pretyman.
Secretary to the Admiralty—Rt. Hon. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE MINISTRY OF MUNITIONS.

President—Rt. Hon. Winston S. Churchill.
Parliamentary Secretaries—Mr. F. Kellaway and Sir Worthington Evans.

The powers of the President of the Board of Munitions are defined in the Act creating it, as "such powers and duties in relation to the supply of munitions for the present war as may be conferred on him by His Majesty in Council." His Majesty may also "if he considers it expedient that in connection with the supply of munitions any powers or duties of a Government Department or authority whether conferred by statute or otherwise, should be transferred to or exercised, or performed concurrently by the Minister of Munitions, make the necessary provision by Order in Council for the purpose." The duties of the office may be classed under three heads:—The organization of private industry for the production of naval and military munitions; the inspection of munitions made by private contractors; and the placing of munitions contracts for army and navy, the arranging for execution of future contracts and the taking over of factories.

MINISTRY OF NATIONAL SERVICE.

President—Sir Aucland Geddes.
Parliamentary Secretary—Mr. A. C. T. Beck.

The functions of the Ministry of National Service—a Department created in 1917—were described by Mr. Beck, the Parliamentary Secretary to the House of Commons on October 17th, 1917:—To review the whole field of British man-power, and to be in a position at all times to lay before the War Cabinet information as to the meaning in terms of man-power, and consequential results of all Departmental proposals put forward to the War Cabinet and referred to the Ministry for its consideration, and for an expression of its opinion; to make arrangements for the transfer from civil work not declared by the War Cabinet to be of primary importance, or, if ordered by the War Cabinet from the Navy, Army, or Air Service, to urgent national work, of such numbers of men as may be declared by the War Cabinet to be necessary to reinforce the labour already engaged on that work, subject to the approval of the War Cabinet; to determine—in consultation with the Departments concerned—the relative importance of the various forms of civil work, and to prepare from time to time lists of reserved occupations, with such age and other limitations as may be necessary to secure the maintenance of essential public services, and the preservation of a nucleus of civil occupations and industries; to make arrangements for the provision, where necessary, of labour (male and female) in substitution for that withdrawn from civil life, within numerical limits imposed by the War Cabinet; to obtain for the Army, Navy, and Air Service, such men as can be withdrawn from civil life, without detriment to the maintenance of essential public services, and the due performance of the civil work necessary to maintain the Forces at sea, in the field, and in the air, and any nucleus of civil occupations and industries declared by the War Cabinet to be necessary, and in this connection to determine the physical fitness of men available, or possibly becoming available, for withdrawal from civil life.

THE BOARD OF EDUCATION.

President—Rt. Hon. Herbert A. L. Fisher.
Secretary—Rt. Hon. J. Herbert Lewis.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

THE LOCAL GOVERNMENT BOARD.

President of the Local Government Board—Rt. Hon. W. Hayes Fisher.
Parliamentary Secretary to the Local Government Board—Mr. Stephen Walsh.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

THE BOARD OF TRADE.

President of the Board of Trade—Rt. Hon. Sir Albert Stanley.
Parliamentary Secretary to the Board of Trade—Mr. George J. Wardle.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

Postmaster-General—Rt. Hon. Albert H. Illingworth.
Assistant Postmaster-General—Rt. Hon. Herbert Pike Pease.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

The National Insurance Act of 1910 is worked partly through the Post Office, as is also the Old Age Pension Act of 1908.

THE BOARD OF AGRICULTURE.

President of the Board of Agriculture—Rt. Hon. Rowland E. Protbero.
Parliamentary Secretaries to the Board of Agriculture—Sir Richard Winfrey, Duke of Marlborough.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

First Commissioner of Works—Rt. Hon. Sir Alfred M. Mond.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

Lord Chamberlain—Viscount Sandhurst.
Treasurer—Col. James Craig.
Comptroller of the Household—Sir Edwin Cornwall.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

Lord Lieutenant of Ireland—Lord Wimborne.
Chief Secretary for Ireland—Rt. Hon. H. E. Duke.
Secretary for Scotland—Rt. Hon. Robert Munro.
Lord Advocate—James A. Clyde.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1910. Mr. J. H. Whitley, in October, 1911, became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbért is Clerk of the House (salary £1,800); Sir Colin Keppel, Sergeant-at-Arms (salary £1,000).

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. The present pensioners are Lord George Hamilton since 1892 in the first class; Mr. Henry Chaplin and Lord Balfour of Burleigh in the second class. No new pensions have been granted since the Balfour Government went out of office in December, 1905.

Salaries of Ministers are fixed by Act of Parliament, but each Minister is to do as he pleases with his salary. The new Ministers agreed to pool their salaries, which differ in amount, and to divide equally—an arrangement which gave each Minister about £4,500. The pooling arrangement excited some discussion and led to a proposal that there should be a general revision of Ministers' salaries.

THE ELECTORAL SYSTEM OF THE UNITED KINGDOM.

In previous issues of the Canadian Almanac there was published a statement of the franchises on which members of the House of Commons at Westminster are elected, and also a table showing the distribution of seats in England and Wales, Scotland and Ireland. This statement disappears from this year's issue, because at the time the Almanac went to press, a bill, making sweeping changes in the electoral system and important changes in the distribution of seats, was at report stage in the House of Commons.

It was what is known in parliamentary phraseology as an agreed bill. It had this exceptional status, because it was based on recommendations made by a conference representing all parties in the House of Commons and the House of Lords, of which the Speaker—the Rt. Hon. J. W. Lowther—was the chairman. The conference began its work on October 10th, 1916. It held altogether twenty-six sittings; and its report, with the accompanying recommendations was not complete until the end of January, 1917. It was presented to the House of Commons in March; and on May 15th, the agreed bill, based on the recommendations of the conference, was submitted to the House.

The bill had not become a law at the time the Almanac went to press. It had still to be read a third time in the Commons, and to go to the House of Lords. But as its main lines had been settled, as it was certain to become a law in the parliamentary session of 1917-1918, and as the general election in 1918 will take place on the new franchises, it seemed essential that the more important changes made by this great reform in the representative system of the United Kingdom should be outlined in the Almanac for 1918.

Under the old distribution of seats, which dated back to an Act of 1885, there were 670 members of the House of Commons. The distribution was as follows:—

England		465
London	61	
Boroughs	165	
Counties	234	
Universities	5	
Wales		30
Boroughs	11	
Counties	19	
Scotland		72
Burghs	31	
Counties	39	
Universities	2	
Ireland		103
Boroughs	16	
Counties	85	
Universities	2	
Total	670	

By the bill of 1917, the number of members of the House of Commons is increased from 670 to 701. The distribution is as follows:—

England and Wales		525
Counties	254	
Boroughs	204	
London Boroughs	62	
Universities	5	
Scotland		73
Counties	38	
Boroughs	33	
Universities	2	
Ireland		103
Counties	85	
Boroughs	16	
Universities	2	
Total	701	

The average unit of population per member in England and Wales was reduced from 77,326 to 68,600. In the London boroughs it was reduced only from 76,773 to 72,871. In Scotland the reduction was from 68,013 to 66,862. The changes in this particular made in Ireland cannot be stated, because at the time this article was written the report of the boundary commissioners for Ireland had not been published, and all that was then known was that there was to be no change in the quota of members from Ireland at Westminster. The distribution of seats as between boroughs and counties may vary a little from the figures in the first table, but the total number of members from Ireland is not to be decreased.

Under the old electoral system as it survived until the Reform Act of 1832, there were between seventy and eighty different qualifications for votes in the election of members of the House of Commons. There were potwalloper voters, freeman voters, burgage voters, municipal corporation members who were voters, freehold voters, and university voters. Most of the seventy or eighty qualifications were swept away in 1832. More disappeared in the reforms of 1867 and 1884. But even under the law of 1884, nearly a score of qualifications existed; and the plural voter—the man who could vote in any constituency in which he had a residence or a business premises qualification or a freehold qualification, survived all the changes of 1832, 1867 and 1884.

The bill of 1917 greatly simplifies the whole electoral system, and carries it back a long way towards the simple and democratic system on which the House of Commons was elected during the first two centuries of its existence. It sweeps away most of the qualifications that survived the reform of 1884; and substitutes residence or the occupation of business premises. It does not quite end plural voting. A man may vote in respect of his home and of his place of business if these are in different parliamentary constituencies. Contrary to popular expectation, which had grown up in the years between 1884 and 1917, the university franchise is continued; and women graduates become entitled to the university vote on reaching the age of thirty years. The vote is also conferred on all women householders, and on the wives of men who are householders, subject to the additional qualification that the women shall have reached thirty.

From the time the House of Commons first existed it was the law that no person could vote until he had reached the age of twenty-one. There is a special provision in the bill, making it possible for all men who have served in the naval and military forces during the war to be qualified to vote from the age of nineteen.

The bill is as obviously a war-time measure as the Dominion electoral act that was passed by parliament at Ottawa in the session of 1917. Like the Canadian act, it, for the first time, enfranchises women as parliamentary voters; and like the Canadian act also, it contains a section under which conscientious objectors—men who from reasons of conscience refuse to serve with the military or naval forces during the war—are deprived of their votes. Elections in Canada have all been held on one day since 1872. Under the new electoral code for the United Kingdom all elections will take place on the same day. Under the old code an election in any one constituency could not extend beyond one day; but elections were not simultaneous, and nearly two weeks elapsed before all the pollings came to an end, and the political complexion of the new House of Commons was finally determined.

THE POPULATION OF THE UNITED KINGDOM.

The census of the inhabitants of England and Wales, Scotland and Ireland, the Isle of Man and the Channel Islands is taken in the first year of each decade. The enumeration is carried out by means of household schedules—a plan first adopted in 1841. In taking the census for England and Wales in 1911 the enumerators worked under the direction of the 2,009 local registrars, and these again under the direction of the 635 superintendent registrars. The 2,009 registration districts were subdivided into 35,000 enumeration districts.

By means of this machinery the total number of persons returned as living in England and Wales at midnight of Sunday, April 2nd, 1911, was 36,075,269. For Scotland, the total population was returned as 4,759,521; for Ireland, 4,381,951; and for the islands of the British seas—the Isle of Man and the Channel Islands—148,934, making a total population for the United Kingdom of 45,365,675. The following table gives the actual population and the rate of increase in England and Wales for the last 110 years:—

Year.	Population.	Rate of Increase.
1801	8,892,536	.....
1811	10,164,256	14·00
1821	12,000,236	18·06
1831	13,896,797	15·80
1841	15,914,148	14·27
1851	17,927,609	12·65
1861	20,066,224	11·90
1871	22,712,266	13·21
1881	25,974,439	14·36
1891	29,002,525	11·65
1901	32,527,843	12·17
1911	36,075,269	10·91

During the 110 years it will thus be seen that the population of England and Wales has more than quadrupled, and that, roughly speaking, there are now four persons to every one inhabiting the country at the opening of the nineteenth century.

Ireland is the only part of the United Kingdom in which a religious census is taken. According to the returns of the enumerators at the census of 1911, out of the 4,381,951 inhabitants of Ireland, 3,238,056 are of the Roman Catholic Church; 575,489 are of the Episcopal Church; 439,876 are Presbyterians, and 61,806 are Methodists. In the decrease of population, the Roman Catholics have lost the most, both in actual numbers and proportionately. The loss of the Roman Catholics is reckoned at 2·1 per cent.; of the Episcopalians, 1 per cent.; of the Presbyterians, 0·8 per cent.; and of the Methodists, 0·3 per cent. Of the total population the percentages are:—

Roman Catholics	73·9 per cent.
Episcopalians	13·1 "
Presbyterians	10·0 "
Methodists	1·4 "
Scattering	1·6 "

Population of the Oversea Dominions.

The Commonwealth of Australia, the Dominion of New Zealand, and the Union of South Africa took their census in 1911. The figures for Australia were:—

	Males.	Females.	Total.
New South Wales	857,719	790,491	1,648,210
Victoria	654,523	660,477	1,315,000
Queensland	329,043	276,000	605,043
South Australia	207,358	201,200	408,558
Western Australia	165,373	120,613	285,986
North Australia	2,748	562	3,310
Tasmania	97,336	93,562	190,878

Total population for the Dominion of Australia, 4,455,005. The population of Australia in 1901 was 3,773,801.

The population of the Dominion of New Zealand in 1911 was 531,910 males, 476,658 females; total 1,008,468.

For the Union of South Africa the total population of all races was 5,938,499, as compared with 5,185,824 in 1904. Of these there are 1,278,025 Europeans, compared with 1,116,806; and 4,061,082 natives, as compared with 3,495,104. The other colored inhabitants number 619,392, as compared with 563,914. The feature of the returns for South Africa is the shrinkage in the population of the coast towns with the exception of Durban, and the great growth of Johannesburg, the Reef and Pretoria.

BRITISH CUSTOMS DUTIES.

From 1846 to the Great War all import or customs duties imposed by Parliament at Westminster were solely for revenue. There was not a single protective schedule in any of the British tariffs of these sixty-eight years. To check importations of luxuries and to redress the balance of trade during the war, duties for other than revenue purposes are now being levied on some imports. This war policy was inaugurated by the Budget submitted to the House of Commons on September 21st, 1915, and the policy was continued by the finance legislation which followed the Budget submitted by Mr. McKenna on April 4th, 1916, and the Budget submitted by Mr. A. Bonar Law on May 2nd, 1917. Under the finance Acts of 1915, 1916 and 1917, the following duties are now collected at the ports of entry of the United Kingdom :—

COMPULSORY MILITARY SERVICE IN GREAT BRITAIN.

Compulsory military service is now established in England and Wales, and also in Scotland. Two Acts of Parliament were passed to bring about compulsion, which, with some exemptions, is universal in its application in Great Britain. The first Act, known as the Military Service Act, No. 1, which received the royal assent on January 27th, 1916, applied only to unmarried men, and to widowers with no children dependent upon them. The age of service as fixed by the law is from 18 to 41.

Under the second law, which was enacted in May, 1916, every male British subject resident in Great Britain is brought within the provisions of the law of January 27th. The law provided that on a day to be named by royal proclamation, "every man coming within its scope, was to be deemed to have been duly enlisted in His Majesty's regular forces for general service with the colors, or in the reserve for the period of the war, and to have been forthwith transferred to the reserve." Under the pre-war time army and territorial services acts, soldiers and territorials whose terms of service expired during a war, could be compulsory retained for a year. By an amendment made to these acts when the law of May, 1916, was before Parliament, men whose original term in the army or the territorial force expires during the present war, are to be held for the duration of the war.

The exemptions provided for in the laws of January and May, 1916, are individual and general. Individual exemptions are regulated by section II. of the Act of January. General exemptions are regulated by a schedule of the Act.

Grounds for Individual Exemptions.

Local tribunals were established by the Act to pass on applications for individual exemptions. 1,414 of these tribunals were created, and there are also 46 tribunals to which appeals from the local tribunals may be carried. Certificates of exemption can be granted by the local tribunals, but only on four grounds. These are:—

(*a*) On the ground that it is expedient in the national interests that a man should, instead of being employed in military service, be engaged in other work in which he is habitually engaged or in which he wishes to be engaged, or, if he is being educated or trained for any work, that he should continue to be so educated or trained; or

(*b*) On the ground that serious hardship would ensue, if the man were called up for Army Service, owing to his exceptional financial, or business obligations or domestic position; or

(*c*) On the ground of ill health or infirmity; or

(*d*) On the ground of a conscientious objection to the undertaking of combatant service.

A holder of a certificate of exemption granted by tribunals must, when required by a constable or by any person who has authority for the purpose from the Army Council, "produce his certificate or give particulars as to the authority by which the certificate was granted, and the grounds on which it was granted. If any man fails to comply with this provision or gives particulars which are false in any material respect, he shall in respect of each offence be liable on summary conviction to a fine not exceeding three months."

General Exemptions.

1. Men ordinarily resident in His Majesty's Dominions abroad or resident in Great Britain for the purpose only of their education or for some other special purpose.

2. Members of His Majesty's regular or reserve forces, or of the forces raised by the Governments of His Majesty's Dominions, and members of the Territorial Force who are liable for foreign service or who are, in the opinion of the Army Council, not suited for foreign service.

3. Men serving in the Navy, or the Royal Marines, or who, though not serving in the Navy or Royal Marines, are recommended for exception by the Admiralty.

4. Men in holy orders or regular ministers of any religious denomination.

5. Men who have left or been discharged from the naval or military service of the Crown in consequence of disablement or ill health (including officers who have ceased to hold a commission in consequence of disablement or ill health), and, subject to any provision which may hereafter be made by Parliament, men who have been discharged from the naval or military service of the Crown on the termination of their period of service.

6. Men who hold a certificate of exemption under this Act for the time being in force (other than a certificate of exemption from combatant service only), or who have offered themselves for enlistment and been rejected since the fourteenth day of August nineteen hundred and fifteen.

The Derby Scheme.

Before Parliament sanctioned the first bill establishing compulsory service 2,950,514 men had volunteered under what was known as the Derby scheme. Of these 275,031 had joined the army at the time of attesting—at the time they took the military oath—and 2,246,630 were available under the group system. This was a system under which men were registered for service according to their age and their condition—whether married or single. They were then placed in groups which were liable to be called by royal proclamation for immediate service.

The Derby scheme had as its basis the general registration of the population that was made in the summer of 1915. Men and women were included in this registration; and as a result of this work, which was done largely by men and women volunteers, who went from house to house, filling up the registration cards, the local and military authorities knew the whereabouts of every man and woman who could be of service—in the army or in the munition factories or other national wartime service.

The first of the groups under the Derby scheme were called up by royal proclamation issued on the 9th of February, 1916. Single men from 19 to 30—twelve groups—were then called, and ordered to report for service on March 3rd. Other groups—married as well as single men—were called in quick succession; and by May 11th, 1916, the last call under the Derby system had been issued. It was for married men in groups 42 to 46, and included men from 36 to 40 years of age inclusive.

The first of the compulsory laws—that affecting only unmarried men from 18 to 41, unless they had certificates of exemption or were of the exempted classes, went into force on June 24th, 1916. Youths of 18, although they were accepted under the Derby recruiting scheme, were not called up while the Earl of Derby's scheme was in operation, and when by June 24th both of the compulsory service Acts were in force youths of 18 were not required to report for service unless they desired to offer themselves for direct enlistment.

Thousands of youths of 18 went into service between the beginning of the war and March 1st, 1917, when the first of the compulsory laws went into effect. But neither in the armies on the several fronts, nor in the camps in Great Britain up to the end of 1917, were there boys of 18 who had been compelled by law to serve.

Compulsory service has not been established in Ireland. In pre-war days there were always quite a large number of Irishmen in the army. Ireland responded fairly well to the call for men that was made after the war began; and on October 11th, 1916, Lord Wimborne, at a public meeting in Dublin—a meeting that was reported in both the British and Canadian and American press—announced that 154,795 men in Ireland had voluntarily joined the army. Of this total 92,404 were Catholics, and 62,391 were Protestants. The population of Ireland at the census in 1911 was 4,381,951. The number of Catholics in 1911 was 3,238,056, equal to 73.9 of the total population.

BRITISH WAR TAXATION, WAR LOANS, AND WAR FINANCE.

Each year since the beginning of the Great War in August, 1914, there has been published in the Canadian Almanac a carefully compiled and detailed statement of expenditures by the British Government on the war, and of the taxation and loans by which the colossal expenditures are being met. The statement that was published in the Almanac for 1917, carried the financial history of the war to October 11th, 1916, and included all the votes of credit passed by Parliament from August 6th, 1914, to that date. Thirteen of these votes had then been passed—making the grand total £3,132,000,000. [Cf. Canadian Almanac, 1917, pp. 393, 394].

In the period from October 11th, 1916, to October 30th, 1917, there were six more votes of credit. But before giving the figures of these votes, the war budget for the fiscal year 1917-1918 calls for attention.

War Budget for 1917-1918.

The budget was submitted by Mr. Bonar Law, to the House of Commons, on May 2nd. It was Mr. Law's first budget. The budget for 1916-17 was submitted to the House by Mr. Reginald McKenna, who was Chancellor of the Exchequer in the Coalition Government that was in power from May, 1915, to December, 1916.

Mr. Law's statement showed that the estimated total expenditures on war and on civil government for the year 1916-1917—Mr. McKenna's estimates of April 4th, 1916—were £1,825,380,000. The actual expenditures were £2,198,113,000. The estimated revenue for the year was £502,275,000. The actual receipts were £573,428,000. The deficit for the year 1916-17 was thus £1,624,685,000.

Munitions and Loans for the Dominions and the Allies.

"It is hardly necessary for me," said Mr. Bonar Law, in calling the attention of the House to these figures, "to explain again that the expenditure is largely due to two causes—the increased cost of munitions, and increased advances to our Allies and to our Dominions. I need not justify to the House expenditures under either of these heads. The result of the increased expenditure of munitions is seen in the position of our armies in France, and on every front. And as regards the advances, the British Government, from the first, has considered that this was one war, in which the interests of all the Allies were alike, and that it was our duty, to the extent of our ability, to use our resources, financial or otherwise, in aid of our Allies in precisely the same way as if they were spent on ourselves."

Loans to Allies Exceed the Estimate.

"I should like to add," continued the Chancellor of the Exchequer, "that the estimate for loans to the Allies and Dominions has been exceeded by something like £100,000,000. It is a satisfaction to me, as I am sure it is to the Committee, to know that as regards the Dominions they have not only had the will, of which there was no doubt, but they have had the power to supply so much from their own resources that there has been no increasing strain upon the British exchequer from that source. The Committee will be interested to know the total amount of these advances; and here I give the figures which represent the obligations to the British treasury, including, that is, interest and discount, and not the actual amount expended. Last year the total advances to the Allies were £540,000,000, and to the Dominions £54,000,000, making a total of £594,000,000. From the beginning of war the total advances to the Allies are £828,000,000, and to the Dominions £142,000,000, the total being £970,000,000."

Customs and Inland Revenue Receipts.

The Chancellor of the Exchequer next asked the House, then in committee of ways and means, to turn with him to the income of the government for 1916-1917, and in particular to the receipts from customs and inland revenue duties. The estimate of revenue, he said, was £502,275,000. "The actual revenue," he continued, "exceeded that amount by £71,153,000. In view of the restrictions of all kinds the Committee will have anticipated that there has been a deficit in the case of customs and excise. Taking the two together that deficit amounts to £9,059,000; and it extends, as might be expected, over almost every branch of the two services. The main exceptions are tea, in which there is a surplus of £1,000,000, which, however, is almost entirely represented by forestalments; and tobacco in which there is an excess of about £1,500,000. If we turn to the inland revenue there is a different picture. There the total increase amounts to £66,039,000. Income tax exceeded the estimate by £7,930,000, and super-tax by £2,103,000, making altogether an excess of upwards of £10,000,000."

Success of the First War Loan of 1917.

The success which attended the first war loan of 1917 —that issued in February—was then detailed by the Chancellor. "The five per cent. loan, including treasury bills," he said," amounted to £966,048,000. The 4½ per cent. loan converted, amounted to £821,005,000; exchequer bonds converted amounted to £282,792,000. The total amount converted is therefore £1,048,612,000. As this loan was issued at a discount this is represented by face value stock at £1,103,797,000. The applications for the four per cent. loan, including treasury bills, were £22,658,000. The 4½ exchequer bonds converted were £28,726,000, making a total of £51,384,000. The house will not be sorry to see, as an indication of how the future is regarded, that the tax-compounded loan has not been taken advantage of to any great extent."

War Savings Certificates.

It was with obvious satisfaction that the Chancellor of the Exchequer called the attention of the House to the success of the war savings certificates plan of raising loans. "In my judgment," he said, "there is nothing connected with the finance of the war so satisfactory as the way in which men of small means have contributed to the expense of the war through this medium. I am very glad to tell the House that the boom in war savings certificates has not spent itself. Some idea of the growth of this form of saving will be found when I say that the total amount contributed from February 22nd, 1916, the date on which they started, to December 31st, 1916, was £54,664,000, whereas the total from January 1st to March 31st, 1917, was nearly £46,000,000. I am informed that it is even more satisfactory than this, because the subscriptions now consist almost entirely of small individual applications."

A National Debt of Nearly Four Thousand Millions Sterling.

At the beginning of the war the National Debt stood at £651,000,000. On March 31st, 1917, it stood at £3,854,000,000. "From the National Debt, in any estimate of what our position on peace basis will be after the war," continued the Chancellor of the Exchequer, "we are entitled to deduct the advances made to our Allies and to the Dominions. My rt. hon. friend (Mr. McKenna) last year gave quite correctly the standard of our position [cf. Canadian Almanac, 1917, p. 392]. It was that at the end of each financial year we should be able to show a surplus of revenue, not including duties which will come to an end when the war closes, which will provide the amount necessary to carry on the service of the country, including reasonable provision for the paying off of the debt that has been incurred."

Ability of Great Britain to Take Care of the National Debt.

The Chancellor of the Exchequer told the House that he had the balance sheet for 1916-17 examined from the point of view of the ability of the country to meet the charges on the National Debt, and to meet also the increased ordinary current charges of the government. "And this," he continued, "is the result. Our total revenue is £573,428,000. If we deduct the excess profits duty, and other non-recurring revenue, like interest from the Dominions and Allies, the amount is £157,000,000 roughly, it leaves a total revenue of £416,108,000.

The pre-war expenditure—the ordinary expenditures of the government in 1913-1914—was approximately £173,000,000. If you make additions—they will not be less—for pensions and education of £30,000,000; if you take the debt charge at the rate of interest of 5½ per cent., which would pay it off in 42 or 43 years—the amount is £153,700,000—on this basis at the end of last year there was a balance in our favor of upwards of £59,000,000."

War on a Pay-as-You-Go Basis.

There was another point of view, which, to the Chancellor, was as important as the ability of Great Britain to meet all its war obligations and to pay its way as usual in the years that will come after the war is at an end. "This," he said, "is the extent to which this gigantic expenditure is being met out of taxation and not from borrowed money. The result of that for last year is as follows:—Our total national expenditure during the war is £4,318,000,000. Of this £1,137,000,000, or fully 26 per cent., was provided out of revenue, and I need not remind the House that there is not a belligerent country which by any possibility could present a figure so satisfactory."

Eighty per Cent. Wartime Excess Profits Tax.

No proposals for new taxes were submitted to the House by the Chancellor of the Exchequer. There were, however, proposals, subsequently accepted by parliament, increasing the duties payable on tickets to theatres, moving pictures houses, and to other public entertaiments; increasing the duty on tobacco; and the excess profits tax was increased from sixty to eighty per cent. With these additions to already existing taxes, it was the expectation of the Chancellor of the Exchequer on May 2nd, 1917, that the revenue for 1917-1918 would be £612,500,000, as compared with £573,428,000, the actual revenue of 1916-1917.

The yield from all sources in the current year—April 1st, 1917, to March 31st, 1918—is estimated as follows:—

Customs	£64,750,000
Excise	34,850,000
Estate, etc., Duties	29,000,000
Stamps	8,000,000
Land Tax	650,000
House Duty	1,950,000
Income-tax and Super-tax	224,000,000
Excess profits and munitions levy	180,000,000
Land Value Duties	400,000
Total receipts from taxes	£543,600,000
Postal Service	£24,200,000
Telegraph Service	3,250,000
Telephone Service	6,250,000
Crown Lands	600,000
Receipts from sundry loans, etc.	7,500,000
Miscellaneous	27,100,000
Total receipts from non-tax revenue	£68,900,000
Total revenue	£612,500,000

From the increase in duties or stamp charges on theatre and other entertainment tickets, revenue of £100,000 was expected. The increase in duty on tobacco is expected to yield £6,000,000; while from the raising of the excess profits tax from sixty to eighty per cent. the expected yield is £20,000,000.

The estimated expenditures for the year based on the war continuing beyond March 31st, 1918, are £2,290,381,000; and the Chancellor of the Exchequer expected a deficit of £1,651,781,000.

Average Daily Cost of the War.

In the first 118 days of the fiscal year that began on April 1st, 1917, the average daily expenditure on the war was £6,795,000—an excess of £1,384,000 per day over the estimate of daily expenditure given to the House by the Chancellor of the Exchequer when he made his budget statement for 1917-1918.

In the first 63 days of the current financial year the average daily expenditure was as high as £7,884,000. "Is there any hope," asked a member of the House of Commons, on June 11th, "that the future expenditure is going to be at a less rate?" "I have every reason to hope," answered the Chancellor of the Exchequer, "that it will be at a less rate, but as I said when introducing the vote of credit (May 9th) I was not very sanguine that the estimate would not be exceeded." When the vote of credit of July 24th—a vote for £650,000,000—was before the House, Mr. McKenna, ex-Chancellor, warned parliament and the country "to look forward to a war expenditure of £8,000,000 a day. Our revenue," he added, "is less than £2,000,000 a day, and if we spend £8,000,000 a day, we must borrow £6,000,000 a day."

What is Meant by a Vote of Credit.

Before each vote of credit is submitted to the House of Commons a white paper is issued stating that the vote is an estimate of further amount required towards defraying the expenses which may be incurred for:—

General Navy and Army Services in so far as specific provision is not made therefor by Parliament.

The conduct of naval and military operations.

All measures which may be taken for the security of the country.

Assisting the food supply, and promoting the continuance of trade, industry, business, and communications, whether by means of insurance or indemnity against risk, the financing of the purchase and resale of foodstuffs and materials, or otherwise.

Relief of distress, and generally for all expenses beyond those provided for in the ordinary grants of Parliament, arising out of the existence of a state of war.

Rate of Interest on Borrowed Money.

The average rate of interest which the government is paying on loans is approximately 4¾ per cent. "If," said the Chancellor of the Exchequer, when he announced this fact to the House of Commons, on May 2nd, 1917, "anyone is inclined to compare the rate of interest we have to pay with the rate in Germany, they have to bear in mind that the exchange there has been given up, and that they have only home conditions to consider. If we had been in that condition, I do not doubt that we could have got the money 1 or 1½ per cent. cheaper than we actually had to pay for it."

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of at least six Trustees, appointed jointly by the Municipal Councils concerned. In Urban Municipalities Trustees may be appointed by the Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have the right to appoint a trustee. The Principal of the High School or Collegiate Institute must be a graduate of a University in the British Dominions, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and funds must be raised by local assessment. Every High School must have a Principal and at least one assistant teacher. Each Collegiate Institute receives a fixed amount of $250, and each High School with fewer than four teachers $300, other schools $275, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes. Special grants ranging from $40 to $160 are also given to "Approved Schools." Pupils attending Continuation and High Schools, and Collegiate Institutes may receive training fitting them for business life or the academic standing required of school teachers, or may be prepared for Matriculation to the Universities. There were 48 Collegiate Institutes, 112 High Schools, and 132 Continuation Schools doing the same grade of teaching in connection mainly with the Public and Separate Schools, in Ontario in 1916 1917.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one School ; and in each of these Sections three Trustees are elected to form a Board to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by an elected Board of at least six Trustees.

TECHNICAL AND INDUSTRIAL SCHOOLS.

The Industrial Education Act provides for the organization of a system of Technical and Industrial Schools for Ontario. These schools are (1) *Day Schools*, as follows:—(*a*) General Industrial Schools and Courses for instruction in such subjects as may form a basal preparation for the trades, including workshop practice; (*b*) Special Industrial Schools and Courses, for instruction in the theoretical and practical work of particular trades; (*c*) Technical High Schools and High School Courses; (*d*) Part-time co-operative Industrial Courses in which apprentices employed in the workshops may receive instruction bearing upon their trades; (*e*) Schools and Courses for instruction in the fine and applied arts. (2) *Night Schools*, in which workmen and workwomen employed during the day may receive theoretical and practical instruction in their trades or callings. Each school is under the control of an Advisory Industrial Committee appointed by the High School Board of the municipality. This committee consists of an equal number of representatives of the Board and of the manufacturing or other industries of the place. The representatives of the industries are made up equally of employers and employees. The schools are liberally supported by Government grants, based upon the amount paid for the salaries of the teachers, and upon the accommodations and equipment provided. Schools are conducted under this Act as follows:

EDUCATIONAL INSTITUTIONS.

THE UNIVERSITY OF TORONTO

WITH WHICH ARE FEDERATED

Victoria and Trinity Universities, and St. Michael's, Knox, and Wycliffe Colleges.

The University of Toronto includes the Faculties of Arts, Medicine, Applied Science and Engineering, Household Science, Education, and Forestry. The Faculty of Arts, in its turn, includes the four Arts Colleges:—University College, Victoria College, Trinity College and St. Michael's College, in one or other of which all undergraduates in Arts are enrolled. In certain subjects (chiefly the languages) the undergraduate work is conducted by these colleges, each for its own students; in the remaining subjects (chiefly the sciences) all the students receive instruction in common from a general University Arts Staff. For all Arts students, whatever their college, the curriculum and examinations are those of the University of Toronto, from which also they receive their degree of B.A. The University has no Faculty of Theology; in this department of work the federated Universities, Victoria and Trinity, still retain their original independence and degree conferring powers.

The following Colleges are in affiliation with the University of Toronto, their Students obtaining their Degrees at this Institution:—

Royal College of Dental Surgeons
Ont. College of Pharmacy
Ontario Agricultural Col'ge
Ontario Veterinary College
Toronto Conservatory of Music

LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1916, was conducted by 44 active companies—26 Canadian, 7 British, 10 American and 1 Colonial.

NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to $231,101,625, an increase from those taken out in the preceding year of $9,982,067. The respective amounts effected in each of the three classes of companies were:

Canadian Companies,	$138,201,281,	or 60% of the whole
British and Colonial Companies.........	5,250,633,	" 2% " "
United States Co.'s...	87,649,711,	" 38% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by $45,300,937.

TOTAL ASSURANCE IN FORCE.

The aggregate of life assurance in force December 31st, 1916, amounted to $1,422,179,632, an increase over that of the previous year of no less than $110,562,955. The distribution is shown as follows:

Companies.	Amount in Force.	Increase.
	$	$
Canadian...............	895,528,435	65,555,626
British and Colonial.....	59,151,931	1,064,913
United States............	467,499,266	43,942,416
Total.......	$1,422,179,632	$110,562,955

The progress of the business, from the standpoint of the aggregate volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

AGGREGATE LIFE ASSURANCE IN FORCE AT CLOSE OF

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	$	$	$	$
1886	88,181,859	27,225,607	55,908,230	171,315,696
1896	195,303,042	34,837,448	97,660,009	327,800,499
1906	420,864,847	45,655,951	187,740,102	656,260,900
1916	895,528,435	59,151,931	467,499,266	1,422,179,632

From $171,315,696 in 1886 to $1,422,179,632 in 1916, represents the large increase of over 730% in thirty years.

DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1916 was 10·593, an increase over the highest rate in the preceding four years. The increase is accounted for by the war. The total death claims from all causes amounted in the year 1916 to $22,462,118. The war claims alone amounted to $4,560,938, or 20·3% of the total. The following table gives the rate for each of the years 1912-13-14-15-16:

——	1916.	1915.	1914.	1913.	1912.
Active Companies (ordinary)	10·649	8·368	7·527	7·341	7·980
Active Companies (industrial)	10·261	8·743	8·870	9·286	10·001
Assessment and Fraternal Societies	56·629	11·994	10·923	9·644	9·873

All Companies....	10·593	8·842	8·583	8·692	9·337

BENEFITS TO POLICYHOLDERS.

During 1916 the amount disbursed on behalf of policyholders by way of death claims, endowments, dividends, aggregated $35,685,560·54. The details are as follows:

For Death Claims..............	$16,352,599·37
For Matured Endowments......	5,557,405·93
For Annuities..................	1,637,422·24
For Cash Surrender Values.....	7,168,722·21
For Dividends and Profits......	4,969,410·79
	$35,685,560·54

ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies for the year ending December 31st, 1916:

Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 157 (1914), the Benchers consist of 30, elected by the Bar, and *ex-officio* members, consisting of the Minister of Justice, the Solicitor-General of the Dominion, and all members of the Bar of Ontario who have at any time held the office of Minister of Justice or Solicitor-General of the Dominion or of Ontario, or the Attorney-General of Ontario, and every person who has held this office. Every person, treasurer of this Society for seven consecutive years, every person who has been elected for four quinquennial elections, and so long as he does not practice as a Barrister or Solicitor, every retired Judge of the Supreme Court of Canada or of the Exchequer Court of Canada who was a member of the Bar of Ontario, and any retired Judge of the Supreme Court for Ontario; the *elected* being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation for the call of Barristers, the admission of Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Supreme Court of Ontario; with a valuable and extensive library.

Museums in Canada.

ROYAL ONTARIO MUSEUM.

Bloor Street and Avenue Road, Toronto.

ROYAL ONTARIO MUSEUM OF ARCHÆOLOGY — C. T. Currelly, O. Medj., M.A., F.R.S.C., *Director.*

The museum possesses large collections that show the primitive skill of the men in the Palæolithic, Neolithic, Copper, and Bronze ages. The early grain civilisations are illustrated in three galleries of Babylonian and Egyptian objects; the classical period occupies two galleries, and ethnology and the American Indian three. Of civilisation later than that of Rome special attention has been given to the collections of arms, glazed earthenware, Chinese ceramics and metal-work, wood-work and furniture, textiles, embroideries and laces.

The collections have been formed to teach as far as possible the history of mechanical work, and to be a stimulus to the modern worker.

ROYAL ONTARIO MUSEUM OF GEOLOGY—Professor A. P. Coleman, Ph.D., F.R.S., *Director.*

The exhibits are arranged chiefly on an economic basis, sections being devoted to ores of the metals, fuels, ceramics, building stones, abrasives, refractories, etc. Especial attention has been directed to building and ornamental stones, copper and nickel ores, marbles and Canadian coals. The economic geology of famous mining regions is illustrated by suites of specimens among which the series from the nickel region of Sudbury is particularly complete. Glacial geology has received particular attention: striated surfaces, striated stones, and tillites are represented from all the known Ice ages and from all parts of the world.

ROYAL ONTARIO MUSEUM OF MINERALOGY—Professor T. L. Walker, Ph.D., F.G.S., *Director.*

This museum contains an unusually complete series of minerals from all parts of the world as well as a special collection of Canadian minerals for consultation by visitors particularly interested in the minerals and ores of Canada. The museum also contains collections of crystals, rocks, meteorites, radium minerals, and rocks from Antarctica.

A large part of these collections has been presented by persons connected with the mining industry.

ROYAL ONTARIO MUSEUM OF PALÆONTOLOGY—Professor W. A. Parks, Ph.D., F.G.S.A., *Director.*

The museum contains extensive series of Invertebrate fossils arranged to illustrate the anatomy and classification of the different zoological branches, and to indicate the important faunas of the geological ages. Vertebrate fossils are represented by striking reptiles and by an excellent collection of fishes. Fossil plants are shown by good series of Carboniferous, Cretaceous, and Interglacial forms. The collections contain also a special Canadian series designed for the use of students of Canadian geology.

Much unique material is included in the exhibits, and many *type* specimens of particular value, *e.g.*, Matthews types of Cambrian fossils from eastern Canada.

ROYAL ONTARIO MUSEUM OF ZOOLOGY—Professor B. A. Bensley, Ph.D., F.R.S.C., *Director.*

Contains exhibits of representative groups of animals, chiefly Canadian. About 1,000 mounted specimens of birds. Special exhibits of foreign birds, including pheasants, humming birds, and birds of paradise. Collections illustrating natural history of Atlantic and Pacific coasts of Canada.

ONTARIO PROVINCIAL MUSEUM, TORONTO.
